Dated 02.08.2024

SIA Mintos Finance No.44

(incorporated as a limited liability company and registered in the Republic of Latvia with registration number: 40203409012 and LEI: 98450074C6F5A4FB8527)

EUR 40 000 000 Note Programme

Under this Programme, the Issuer may from time-to-time issue Notes denominated in any currency as determined by the Issuer. The Notes will be distributed by way of a public offer.

Notice of the aggregate nominal amount of the Notes, interest (if any) payable in respect of the Notes, the issue price of the Notes and any other applicable terms and conditions not contained in this Base Prospectus which are applicable to the Notes will be set out in the applicable Final Terms.

Notes will be issued in registered form. The maximum aggregate nominal amount of all Notes from time to time outstanding under the Programme will not exceed EUR 40 000 000 (or its equivalent in other currencies).

Any payment under the Notes is dependent on, and limited to, a pool of certain Loans.

This Base Prospectus has been approved as a base prospectus by the NCA, as competent authority under the Prospectus Regulation. The NCA has only approved this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of the Issuer or the quality of the Notes that are the subject of this Base Prospectus. Investors should make their own assessment as to the appropriateness and suitability of investing in the Notes.

The public offer of the Notes is made in Latvia, France, Germany, Italy, Poland, Netherlands, Czech Republic, Belgium, Austria and Spain under this Base Prospectus.

During the validity period of this Base Prospectus the Issuer plans to request that the NCA provides competent authorities under the Prospectus Regulation in Bulgaria, Croatia, Republic of Cyprus, Denmark, Estonia, Finland, Greece, Hungary, Iceland, Ireland, Liechtenstein, Lithuania, Luxembourg, Malta, Norway, Portugal, Romania, Slovakia, Slovenia and Sweden with a certificate of approval attesting that this Base Prospectus has been drawn up following the Prospectus Regulation. When such a certificate shall be obtained it will be permitted to make the public offer under this Base Prospectus in other Member States, and the Issuer shall ensure that Mintos provides information about it on the Platform. Such certificate, if and when received, should not be considered as an endorsement of the Issuer or the quality of the Notes.

This Base Prospectus will be valid for a period of up to 12 months after its approval by the NCA. The Issuer will, in the event of any significant new factor, material mistake or inaccuracy relating to information included in this Base Prospectus which is capable of affecting the assessment of any Notes, prepare a supplement to this Base Prospectus or publish a new Base Prospectus for use in connection with any subsequent issue of Notes. The obligation to prepare a supplement to this Base Prospectus or publish a new Base Prospectus in the event of any significant new factor, material mistake or inaccuracy will cease to apply upon the expiry of the validity period of this Base Prospectus.

This Base Prospectus according to the Article 8 (11) of the Prospectus Regulation is succeeding base prospectus to the initial base prospectus (approved by NCA on 23.08.2023, and related to the Lending Company; programme limit in EUR currency). The form of the final terms from the initial base prospectus is similar to the final terms form under this Base Prospectus and can be found in Section '11. APPLICABLE FINAL TERMS'.

All the final terms (i) created under the initial base prospectus and (ii) with the maturity date exceeding the validity term of the initial base prospectus, and (iii) available on the Platform, are relevant for the continuing offer under this Base Prospectus.

The principal risk factors that may affect the abilities of the Issuer to fulfil its obligations under the Notes are discussed in the section entitled '2. RISK FACTORS' of this Base Prospectus.

Capitalised terms used in this Base Prospectus have the meaning given to them in the section entitled 'GLOSSARY' of this Base Prospectus.

1. GENERAL DESCRIPTION

○ What is Mintos?

Mintos provides solutions for investors looking to build wealth through long-term investing. With loans, bonds, ETFs, real estate, and Smart Cash, Mintos offers a unique mix of alternative and traditional investments for long-term investors. This one-of-a-kind offering enables retail investors to consolidate their portfolios and easily manage all their long-term investments from a single platform.

Mintos has over 500 thousand registered users, and manages more than EUR 600 million in assets under administration (as of 30 June 2024).

Mintos is an authorized investment firm in the European Union under MiFID (*Markets in Financial Instruments Directive*). For more information, see section '6. MINTOS' of this Base Prospectus.

○ What are Notes?

Notes are financial instruments issued by the Issuer via Mintos to Investors, which allows Investors to invest in Loans issued by the Lending Company to the Borrowers.

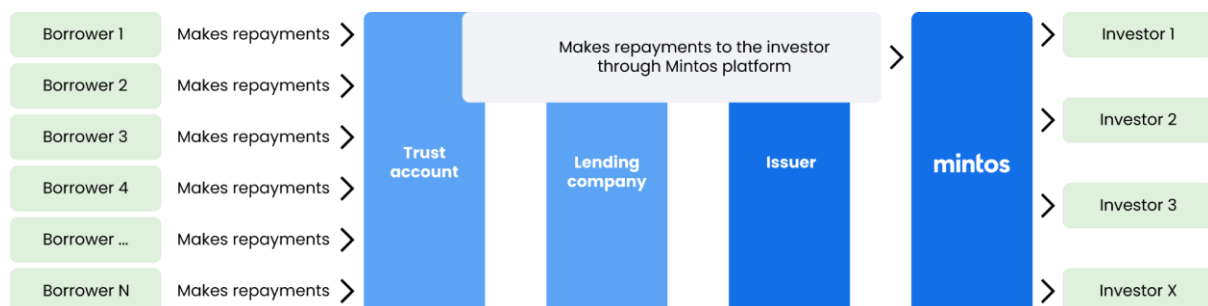

The Issuer is a special purpose legal entity established for the purposes of:

- purchasing Loan Receivables from the Lending Company;
- pooling those Loan Receivables for a particular Series of Notes; and
- issuing those Notes to Investors via Mintos.

See the sections entitled '5. THE ISSUER' and '7. THE LENDING COMPANY' of this Base Prospectus for more information.

○ The flow of funds for repayment

For the purpose of the Lending Company's creditor protection, all Borrowers' repayments are made into a single third-party controlled external Trust account set up with a local bank who acts as a Trustee. Lending Company's creditors, including the Issuer, are subscribed to the Trust as first place beneficiaries who have the right to take over the cash flows resulting from Borrower repayments in case of Lending Company's default by informing the Trustee to redirect the flow of respective funds to the particular creditor's account.

Under the regular course of business, each time the Borrower makes repayments to the Lending Company, the funds are firstly accumulated in the Trust account before being released to the Lending Company. Then, the Lending Company transfers the funds to the Issuer, which in turn makes repayments under the relevant Series of Notes to the relevant Investor via Mintos. The repayments are received into the relevant Investment Account.

In a situation when the Lending Company has defaulted, the Trustee is informed to redirect the Borrowers' repayments to the Issuer directly, which then, in turn, makes repayments under the relevant Series of Notes to the relevant Investor via Mintos.

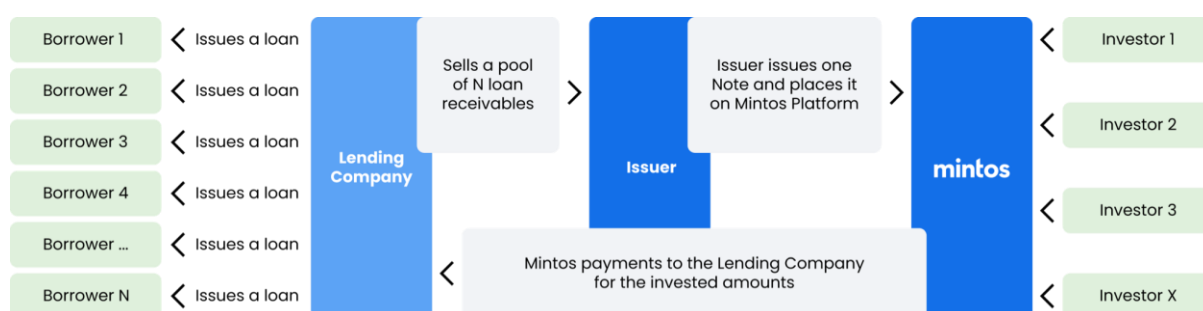

This means that if the Borrower makes:

- the repayments to the Lending Company (through the Trust account) later than scheduled, the repayments to the Investor will also be correspondingly delayed; and
- no repayments at all and the Lending Company is not able to recover anything from the Borrower, no repayments will be received by the Investor.

The Lending Company may provide a Buyback Obligation for Loan Receivables, which means that if any repayment by the Borrower is delayed by more than 60 days, the Lending Company is obliged to repay the Loan Receivables together with any interest. In this situation, the Investor will be exposed to the credit risk of the Lending Company. See section entitled '2. RISK FACTORS – RISKS SPECIFIC TO LOAN SERVICING – Insolvency of the Lending Company'.

○ The flow of funds for investment

The Lending Company issues Loans to Borrowers, and then sells the relevant Loan Receivables to the Issuer. The Issuer issues a Series of Notes corresponding to these Loan Receivables to Investors via Mintos. When an Investor purchases any Note of the Series, the Investment Accounts are credited with the Note and debited with the purchase price of the Note. The purchase price is transferred to the Lending Company.

2. RISK FACTORS

The Issuer believes that the following factors may affect its ability to fulfil its obligations under the Notes. All of these risk factors and events are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. In addition, factors which are material for the purpose of assessing the market risks associated with the Notes are also described below.

Although the most material risk factors have been presented first within each category, the order in which the remaining risks are presented is not necessarily an indication of the likelihood of the risks actually materialising, the potential significance of the risks or the scope of any potential negative impact to the Issuer's or the Lending Company's business, financial condition, results of operations and prospects. The Issuer and/or the Lending Company may face a number of these risks described below simultaneously. While the risk factors below have been divided into categories, some risk factors could belong in more than one category and prospective investors should carefully consider all of the risk factors set out in this section.

The Issuer believes that the factors described below represent the material risks inherent to investing in the Notes, but the inability of the Issuer or the Lending Company to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons and the statements below regarding the risks of investing in any Notes are not exhaustive. Other risks, events, facts or circumstances not included in this Base Prospectus, not presently known to the Issuer, or that the Issuer at the date of this Base Prospectus deems to be immaterial could, individually or cumulatively, prove to be important and may have a significant negative impact on the Issuer's or the Lending Company's business, financial condition, results of operations and prospects. Prospective investors should carefully review the entire Base Prospectus, and should form their own views before making an investment decision with respect to the Notes.

Before making an investment decision with respect to any Notes, prospective investors should consult their own lawyer, accountant or other financial, legal and tax advisers and carefully review the risks entailed by an investment in the Notes and consider such an investment decision in the light of the prospective investor's personal circumstances.

○ **RISKS SPECIFIC TO THE UNDERLYING LOANS**

1. The Borrowers may not make payments according to the agreed schedule or may default on their obligations altogether

The Notes are linked to the pool of underlying Loan Receivables, which means that if any of the Borrowers do not make a payment on time, then the Noteholder will also not receive a payment on time. For example, if a Borrower makes a repayment a week later than the agreed schedule, the Noteholder will also receive the repayment a week later. Furthermore, if a Borrower makes no repayment at all and the Lending Company is not able to recover anything from the Borrower, the Noteholder will also not receive any further repayments unless, if applicable, the Loan is sold with the Buyback Obligation.

The Lending Company may decide to offer additional compensation to the Noteholder in the form of interest income on delayed payments or penalty income. A Loan Agreement with the Borrower may contain a grace period, which is a period immediately after a scheduled payment date during which a late fee is waived provided that the obligation is satisfied during the grace period. Interest income on delayed payments and penalty income would not be paid to the

Noteholder for the grace period.

The Lending Company also has the option to offer the Loan Receivable with the feature of Buyback Obligation which means that the Lending Company is obligated to repurchase the Loan Receivables if the Borrower has failed to pay more than 60 days after the scheduled repayment date. While this feature could reduce the potential loss for the Noteholder due to the Borrower failing to make repayments, the Buyback Obligation is only as strong as the company providing this obligation. If the Lending Company fails to honour its obligation, the Noteholder is still exposed to the risk of the underlying Borrower not making repayments.

While the probability of any Borrower missing repayments or defaulting depends on many factors, such as payment amount, the income of the Borrower, and repayment term, it is important to point out that these probabilities are never zero. Due to this, the Notes are only suitable investments for Investors who have the appropriate knowledge and experience and are in a financial situation that allows them to lose part or even all of the money invested in Notes.

Overall, a Borrower not making repayments in full or defaulting could be caused by a variety of factors, including, but not limited to:

- **The Borrower overestimates its ability to repay** - each Borrower should evaluate its current and future financial position itself and assess its ability to repay. For various reasons, the Borrower could overestimate its future cash flows and borrow more than it will be able to repay.
- **Limitations of initial risk scoring** - the Lending Company has developed its own method for scoring customer credit risk that relies on various information, which can be collected also from other parties than the Lending Company (e.g., credit rating agencies). There is a risk that the information could be wrong or outdated, or that the scoring method is not sufficient.
- **Unexpected events** - reasons why the Borrower could miss a repayment, include loss of employment, a delay in receiving expected income, unexpected costs, or even disability or death.
- **Macroeconomic factors** - the credit risk scoring of the Lending Company makes assumptions about the client's ability to repay during normal economic conditions. A sudden change in macroeconomic factors could significantly impact the Borrower's ability to make repayments.
- **Other liabilities** - the underlying Loans that are linked to the Note usually do not restrict the Borrower from incurring additional unsecured or secured debt. Additional debt may adversely affect the Borrower's creditworthiness and could result in financial distress, insolvency or bankruptcy of the Borrower.
- **Loan issued in a different currency than the Borrower's income** - in some cases, the Loan that has been issued to the Borrower is in a different currency than the currency in which the Borrower earns income. Significant changes in the exchange rates or a local currency devaluation could impact the Borrower's ability to make repayments.

2. It may not be possible to recover the full principal and interest owed by the Borrowers, thus the Noteholder may not receive back its invested amount

While any recoveries from a Borrower are limited to the value of Borrower's assets (if any), some jurisdictions may, set a lower limit that creditors may claim from the Borrower or define a list of the estate which is not allowed to be alienated for recovery purposes, thus reducing the maximum amount that could be covered from the Borrower.

The underlying Loans that are linked to the Note do not restrict the Borrowers from incurring additional unsecured or secured debt. This means that if the Loan is not secured by an asset and any funds from the Borrower are available for recovery, these funds could be allocated to various creditors, i.e., not only the Lending Company, but also other persons that the Borrower owns money to, such as local tax agency, state authorities, other lending companies and utility companies.

If the Loan is secured by an asset, the proceeds from the sale of the asset would be allocated proportionally to the Noteholders of the same Series and all other creditors whose receivables are secured by that asset (unless another allocation order applies under applicable law). In addition, the pledged asset (e.g., car, property) might lose its value and could be sold for an amount that is less than the amount due to the Noteholder, or the asset could be stolen, hidden, alienated, missing or damaged. There is also a risk that any pledge securing the Borrower's obligations under the Loan Agreement may become invalid or unenforceable due to a number of reasons, including, but not limited to, cases when legal relations arising from the loan documents are recategorised by the court of law, mistakes and omissions are made and/or due procedures are not followed when the pledge is formed. In that case, the obligations of the Borrower would become unsecured, and the credit risk significantly increases.

There could also be the case, especially where the amount of the Loan is low, that the expected collection and recovery costs might be higher than the debt itself, which means the collection and recovery is not economically reasonable, thus it would not be pursued.

In addition, the Loan Agreement may, for a variety of reasons, be challenged and thus the ability of the Lending Company to exercise its rights under the Loan Agreement may be delayed or otherwise hindered for an undefined term. The reasons for challenging the Loan Agreement could include errors in agreements, electronic form of agreement (while the legal form requirement might be met in principle by such electronic signature, its value as evidence in court proceedings in some jurisdictions could be less compared to an actual signature made by hand on a physical document), compliance with regulations, such as consumer protection laws, as well as borrower identify fraud cases.

Due to the reasons described above the Noteholder may experience delayed repayments or partial or full loss of the amount invested in Notes.

3. The Borrower may repay the Loan early

A Borrower may repay all or a portion of the remaining principal amount at any time without penalty. This may happen, for example, in cases where the Borrower can acquire lower cost financing from other sources and wishes to refinance the Loan. The Loan Agreement might be also terminated or cancelled in advance by the Lending Company, triggering the early repayment of the amounts due by the Borrower without penalty. While the Noteholder may invest the repaid money elsewhere, the return on the investments could be lower than the

initially planned return.

4. **The Borrower may face difficulties to repay the Loan in advance**

A Borrower may breach the Loan Agreement, for example, the Borrower takes out additional loans without permission from the Lending Company or alienates the collateral, and the Lending Company can therefore require early Loan repayment in full. A Borrower may lack necessary financial resources to make such advance payment, so this could lead to Borrower's debt restructuring or debt collection and result in the Noteholder experiencing delayed repayments or partial or full loss of invested amount under Notes.

○ **RISKS SPECIFIC TO LOAN SERVICING**

1. **The Lending Company is not able to continue Loan servicing**

Various factors can negatively impact the Lending Company's ability to provide Loan servicing, which in turn could lead to delayed repayments to the Noteholder or even partial or full loss of the invested amount. Some of the factors are:

- **Loss-making operations** - The Lending Company may experience losses due to various business events and factors, such as intense competition, higher than expected cost of client acquisition, high recovery costs, unexpected costs, reduction in the portfolio sizes, changes in local regulation with regards to new Loans and management errors.
- **Macro-environmental factors** - Various macro-environmental factors, such as recession, military conflict, natural disasters or pandemic, could significantly increase the non-performing Loans ratio.
- **Freezing, seizing or closing of the Lending Company's operational bank account** - The account that the Lending Company uses for operations might be seized, blocked, or closed for a number of reasons, including anti-money laundering and know your client breaches, sanctions violations, state authorities' arbitrary actions, or insolvency of a bank or payments services provider. Inability to use the bank account could restrict the Lending Company's ability to collect Borrowers' repayments and transfer funds to the Issuer for an indefinite time, or even lead to insolvency or bankruptcy of the Lending Company.
- **Currency control restrictions or lack of corresponding banks chain** - The local government could introduce certain currency control restrictions, leading to a situation where the Lending Company is not able to make payments in foreign currency and/or to the beneficiary that is a foreign entity and/or to an account in a foreign financial institution. Alternatively, corresponding bank relations of a bank or payments services provider which maintains the Lending Company's operational accounts could be dramatically amended or terminated, eliminating the Lending Company's ability to make payments towards the Issuer. This may negatively affect payments to the Issuer and thus further distributions to the Noteholder.
- **Changes in local regulation with regards to Loans already issued** - A legislative body of the country where the Lending Company operates could introduce a Borrowers' moratorium (a legally authorised period of delay in the performance of a legal obligation or the repayment of a debt) or even full or partial debt (including interest and penalties)

release.

- **Foreign exchange positions mismatch** - Quite often Loans are issued and are being repaid in one currency, but Notes promise repayments to Noteholders in another currency, for example, a Loan has been issued to a Borrower in Mexican peso (MXN), but the Investor invests in a Note denominated in euros. If such Loans make up a large amount of the total portfolio, and local currency devalues and the Lending Company has not properly hedged this risk, the Lending Company is subject to foreign exchange positions mismatch risk, leading to significant losses for the Lending Company and its inability to pay amounts due to the Issuer.
- **Other or sole funding sources** - Besides Mintos, the Lending Company may use other sources of funding, such as a bank credit line, corporate bonds issues, private equity or public shares offerings. In some situations, such as an economic downturn, it could be difficult for the Lending Company to attract funding from other sources to refinance the existing liabilities, thus leading to a liquidity crisis that could lead to the Lending Company having difficulties continuing operations. Furthermore, if the Lending Company uses the Platform as a major funding source and a significant number of investors decide to suddenly avoid investing in Notes corresponding to the Loans, the consequences can be the same.

2. No Backup Servicer may be available for servicing the underlying Loans if the Lending Company is not able to continue Loan servicing

One of the key roles of the Lending Company with respect to the Notes is to provide Loan servicing. There might be no backup servicer that could be appointed to take over the servicing from the Lending Company if needed. If there is an event of default or other circumstance that disrupts the due servicing of the Loans and administration of the Borrowers' debts by the Lending Company and if at the time no backup solution for Loan servicing exists, the timeline and volumes of repayments could be significantly impacted, leading to a partial or full loss of amounts invested in Notes.

3. The Lending Company may intentionally or unintentionally breach its contractual obligations

There is a risk that the Lending Company performs actions that are in violation of the Transaction Documents, including the risk of fraud against the Issuer and Mintos, resulting in the partial or full loss of amounts invested in Notes. Contractual breaches that may happen include, but are not limited to:

- **Loan Receivables sold to the Issuer are or will be pledged to other creditors** - According to the Transaction Documents, to which the Lending Company is a party, the Loan Receivables underlying Notes must not be pledged to any creditors. If the Lending Company intentionally or unintentionally pledges the specific Loan Receivables sold to the Issuer to other creditors, the Noteholder could lose some or all the invested funds if the Lending Company defaults or becomes insolvent.
- **False or incomplete information about the Lending Company** - All information in this Base Prospectus about and/or related to the Lending Company has been provided and certified by the Lending Company as actual, true, and complete. Material errors or omission of such information could initially affect the decision of the Noteholder to

invest in a particular Note and eventually result in a negative outcome of the investment.

- **False Borrower data** - The Lending Company provides Mintos with information about the Loan status, the Borrowers, repayment schedules, repayments, extensions of the underlying Loans or changes to the Loan Agreements. While Mintos regularly asks the Lending Company to provide scanned copies of the documents as evidence for randomly selected Loans, Mintos does not check and verify all Loans backing the Notes. There is a risk that the Lending Company intentionally or unintentionally has provided wrong information to Mintos or fails to provide information to Mintos at all, and as a result, the payments under the Notes could be impacted.
- **The Lending Company stops cooperation with Mintos** - The Lending Company could for some reason suddenly stop cooperating with Mintos. This could mean not honouring its obligations under the existing agreements, including the Transaction Documents and breach of their provisions. The Lending Company could stop making payments to the Issuer, which means the Issuer would not be able to make payments to the Noteholder. The Lending Company might also stop providing Mintos with the necessary information or providing the information with significant delays.

4. **Insolvency of the Lending Company**

Insolvency, bankruptcy or other similar adverse events may significantly influence or even dismiss the ability of the Lending Company to service issued Loans and to execute the undertaken Buyback Obligation and Repurchase towards the Issuer. This means that if the Lending Company experiences significant problems, the Lending Company may not be able to transfer the underlying Loan repayments from the Borrower or make payments of buyback price or repurchase price to the Issuer which would mean that the Issuer would not be able to make payments to the Noteholder.

The Lending Company may be required to continue to treat the Loan Receivables as assets of the Lending Company from an accounting perspective. Reflection or recognition of the Loan Receivables sold to the Issuer as the Lending Company's balance sheet assets if insolvency proceeding is initiated, may lead to the receiver or the administrator not recognising the Issuer's title over the Loan Receivable sold to it. In this case, the Issuer would need to take legal actions to protect its interests in the Loan Receivables. The Issuer may have to prove to the administrator, receiver and/or other parties that the Loan Receivables and the Borrower payments towards them are not to be included in the assets of the Lending Company that are available for the general pool of creditors. Should the Loan Receivables be treated as assets of the Lending Company that are available for the general pool of creditors and not of the Issuer, the Issuer might be treated as an unsecured creditor of the Lending Company and it may then be entitled to receive only a portion of all distributions available to the unsecured creditors of the same class, and this portion of distributions may be not enough to cover the indebtedness towards the Issuer partially or in full.

In case of insolvency, an administrator usually is bound to consider which past transactions of the insolvent company have to be contested and which sold assets or transferred funds have to be clawed back. There is a risk that the administrator of the Lending Company takes action to claw back to the Lending Company estate, the Loan Receivables sold to the Issuer or amounts paid to the Issuer. The Issuer would then have to take legal actions to protect its interests in the Loan Receivables and the Borrower payments, and argue against the position

of the administrator in judicial proceedings, which could be long and costly, and no assurance could be made of its successful outcome.

The Transaction Documents allow Mintos to appoint a backup servicer, who would take over the servicing of the Loan Receivables in case of insolvency or bankruptcy of the Lending Company. The enforcement of rights under contracts might not result in recoveries for the Noteholder in a swift manner, and the recovery might be affected by lengthy and costly legal proceedings.

Eventually, the Noteholder may experience delayed repayments or partial or full loss of invested amount under Notes.

5. The Lending Company's IT systems may fail or may be breached

IT systems are a crucial part of all financial services companies and if they are impacted, that could affect the Lending Company's ability to provide financial services to its customers and exchange information with Mintos. This could also result in loss or distortion of significant information and databases that are crucial for sound cooperation between the Lending Company, the Issuer and Mintos, including for Notes issue servicing and administration.

Since IT systems play such a crucial role in the Lending Company's operation, the Lending Company typically devotes a substantial amount of resources to ensure stable and uninterrupted performance of the IT systems. Neither the Issuer nor Mintos audits the Lending Company's IT systems thus cannot ensure their soundness.

○ RISKS SPECIFIC TO PLEDGES WHEN THOSE ARE PROVIDED TO THE ISSUER

1. The pledgor may not honour its obligations

There might be a pledge provided to secure the obligations of the Lending Company towards the Issuer.

If there is a pledge, the pledgor would be expected to allow the Issuer to enforce its pledge by taking over the object of the pledge or putting it up for sale. The procedure for enforcing the rights of the pledge are defined by law in the country of the pledge. There is a risk that the pledged assets might lose their value and could be sold for an amount that is less than the amount due to the Issuer or the asset could be stolen, hidden, alienated, missing or damaged. There is a risk, as with any pledge/security, that it is or becomes unenforceable or invalid (see 'The pledge may become invalid or unenforceable' below).

2. The pledgor may default

The risk of default, for example, insolvency, is a risk that is present for any counterparty, the pledgor included.

If the pledgor defaults, as a general rule the pledge should not be affected and the pledgee should be able to exercise its rights of pledge (to take over the pledge or to put it up for sale and receive all proceeds from the sale to cover the payments due from the Lending Company). However, the Issuer may decide to terminate cooperation with the Lending Company and request that the Lending Company repurchase all Loan Receivables before their term.

3. The pledge may become invalid or unenforceable

There is a risk that pledges securing the Lending Company obligations towards the Issuer may become invalid or unenforceable for several reasons, including, but not limited to cases when legal relations arising from the Transaction Documents are recategorised by the court of law, mistakes and omissions are made and/or due procedures not being followed when pledges are formed. In that case, the obligations of the Lending Company towards the Issuer defined by the Transaction Documents become unsecured and the credit risk significantly increases, and that may trigger the Issuer terminating cooperation with the Lending Company and requesting repurchase by the Lending Company of all the Loan Receivables before their term. If there is no pledge to enforce against then the Issuer is left with the Lending Company as the only debtor party from which to expect the payment of monies due from the Lending Company.

○ **RISKS SPECIFIC TO MINTOS**

1. Various events and failures could cause situations where Mintos is not able to continue operations

As a relatively new service, Mintos operates in a complex and dynamic regulatory and competitive environment and various events and failures could lead to Mintos terminating the provisioning of services, including the operations of the Platform. These events include but are not limited to revocation of licence, weak financial performance, negative reputation, non-compliance events, dramatic changes in the applicable regulations impacting Mintos operating model or an economic downturn. If Mintos ceases operations, this could significantly impact the Noteholder's ability to receive repayment on time.

Should Mintos enter liquidation or insolvency, as a regulated and supervised entity, the process will be supervised by the NCA. The appointed liquidator or administrator will take over the functions of the management board. Mintos will continue servicing its clients and the Investment Accounts, and relevant financial instruments portfolios in line with what Mintos is permitted to do according to the applicable insolvency and liquidation rules. The process from the moment of the appointment would be led by the appointed administrator or liquidator. In some cases, the Investors' Protection Law may apply. Such processes may significantly influence the investment's return times and make the return more complex to the Noteholder.

Furthermore, Mintos could for some reason suddenly stop honouring its obligations under the existing agreements, leading to delayed payments or partial or full loss of the amount invested in the Notes.

2. Non-compliance with regulations could lead to revocation of Mintos' licence

To provide services to clients, Mintos, as the operator of the Platform, has received an investment firm licence from the NCA. The licence could be suspended or revoked due to non-compliance with regulations by Mintos. Loss of licence by Mintos could lead to delayed payments or partial or full loss of invested amount under the Notes.

3. Failure of IT systems or a security breach could lead to significant liabilities and harm relationships with customers

The technology that Mintos has developed over the years is a cornerstone of Mintos' future success. The satisfactory performance, reliability and availability of the Platform is critical to its operations, customer service and reputation.

While Mintos has taken steps to protect confidential information, the techniques used to obtain unauthorised, improper or illegal access to systems, data, or customer data, or to disable or degrade services are constantly evolving and may not be detected quickly.

As a result, Mintos' and Mintos' third-party vendor security measures might be breached, and these security breaches could result in confidential client information being stolen. Breaches of security measures because of third-party action, employee error, third-party vendor error, design flaws in the software, or interruptions in Mintos' systems and services could adversely impact our relationships with Mintos' clients, harm Mintos' reputation and expose Mintos to significant liability.

Furthermore, in the event of damage or interruption, existing insurance policies may not adequately compensate Mintos and Mintos' clients for any losses that may have been incurred. Nevertheless, as IT systems are crucial to Mintos' operations, a substantial amount of resources are devoted to ensuring the stable and uninterrupted performance of the IT systems.

4. Mintos' bank accounts could be frozen or closed and banks, where the Noteholder funds are held, can become insolvent

Mintos clients' funds, including the fund being deposited in the Issuer's Account for settlement under the Notes, are kept segregated from Mintos' own funds in several bank accounts marked as client funds accounts.

One or several of those bank accounts that Mintos uses might be blocked, seized or closed for a number of reasons, including insolvency of the banks, resulting in interruptions of fund transfers to the Lending Company and the Noteholder.

5. Significant problem or termination of the agreement with a Mintos partner may affect the provision of services to the clients

While providing its services, Mintos relies on several carefully selected partners (e.g., cloud computing providers), and any problems with the service providers could impact Mintos' ability to provide services to the Noteholder. Mintos has taken several steps to reduce the likelihood and impact of such occurrences, such as having backup service providers where feasible, there is still a risk that the Noteholder may not be able to access the Platform or receive services.

6. Certain situations or actions may raise conflicts of interests

While the rights and the responsibilities of Mintos, the Issuer, the Lending Company are detailed in the Transaction Documents and this Base Prospectus, and Mintos has established policies and procedures to mitigate the risk, it is not possible to fully avoid the possibility of a conflict of interests between the parties that could impact the interests of the Noteholder.

While Mintos provides placement services to the Issuer with respect to the Notes, Mintos also provides the infrastructure services for the Lending Company and the Issuer to perform sales of the Loan Receivables to the Issuer, as well as to exercise the Buyback Obligations and Repurchases. Mintos receives fees from the Lending Company for placement services. Mintos has carefully set up the fees in a compliant manner and so that it would not violate the conflict of interest management rules. Such placement fees might qualify as inducements and Mintos would disclose information on these inducements to the Noteholder. In addition to inducement disclosures, Mintos has set up internal procedures to identify and manage conflicts of interest. Some conflicts of interest require disclosure and those are disclosed.

○ **RISKS SPECIFIC TO THE ISSUER**

1. The Issuer could default on its obligations or become insolvent

The Issuer is a wholly-owned Mintos Group company, and not engaged in any business activities other than those provided in this Base Prospectus. There is a risk that the Issuer could suddenly stop effectively honouring its obligations under the existing agreements and breaching its provisions, resulting in missing repayments to the Noteholder. This could lead to delays in repayments and partial or full loss of invested amounts.

While the Issuer is created, established and performs its operations as a special purpose undertaking, due to possible legal shortcomings of the applicable law and/or judicial practice, the Issuer might be found insolvent due to the following reasons, including, but not limited to, a Noteholder or other creditor initiating the insolvency procedure against the Issuer in bad faith and the court not finding limited recourse and non-petition provisions defined by this Base Prospectus as a sufficient ground to reject such proceeding. In such situations, the Noteholder could experience delays in receiving its invested funds and its priority as a creditor of the Issuer might be changed by the rule of law, leading to receiving fewer amounts than due under the Notes.

The Terms and Conditions of the Notes (in section 10 of this Base Prospectus) are set up and drafted as having legal force and addressing concerns as legally binding contractual obligations. There can be external circumstances that might influence such legal construction, including, but not limited to court ruling, and/or new or modified legal enactments.

2. Mintos may not be able to cover the maintenance and administrative costs of the Issuer

Considering the pass-through nature of the Issuer, the maintenance costs and administrative expenses of the Issuer are, in essence, covered by the Lending Company, either via direct compensation mechanism or indirectly via Mintos. If for any reason mentioned above in '*RISKS SPECIFIC TO MINTOS*', Mintos is not able to cover such costs, it could significantly influence the operations of the Issuer and its ability to service Notes and make payments to the Noteholder.

3. Information asymmetry

With a reference to risks described above in 'The Lending Company may intentionally or unintentionally breach its contractual obligations - False or incomplete information about the Lending Company' and '-False Borrower data', part of the information in this Base Prospectus as well as significant information being received during the term of the Notes is being sourced and received from the Lending Company. There is a risk that the Lending company can provide material information with delay or fails to provide information to the Issuer at all. As a consequence:

- the Issuer through Mintos acting as its authorised representative will not be able to timely enforce its rights provided in the Transaction Documents and to act in the interests of Noteholders; and
- the Issuer will not be able to prepare and publish supplements to this Base Prospectus in a timely manner, which could impact the Noteholders' judgement on purchasing the Notes being unaware of any significant new factor, material mistake or inaccuracy related to the information being sourced from the Lending Company.

4. Cross-risks applicable to the Issuer

Considering the pass-through nature of the Issuer, the Issuer and its abilities to pay amounts due to the Noteholders under the Note are exposed to all the risks listed above in '*RISKS SPECIFIC TO THE UNDERLYING LOAN*', '*RISKS SPECIFIC TO LOAN SERVICING*', '*RISKS SPECIFIC TO PLEDGES WHEN THOSE ARE PROVIDED TO THE ISSUER*' and '*RISKS SPECIFIC TO MINTOS*'.

○ RISKS SPECIFIC TO NOTES

1. The Noteholder has no rights of recourse against the Borrowers, the Lending Company, or the pledgor

The Noteholder has no direct right to the Loan Receivables. Instead, the Noteholder is acquiring Notes, which are backed by the corresponding Loan Receivables. The legal title in the Loan Receivables and relevant rights arising from them are vested in the Issuer. This means that the Noteholder will have no direct recourse against the Borrowers and no ability to independently and in its discretion to pursue any Borrower to collect payments under the relevant Loan. For the same reason the Noteholder will have no direct recourse against the Lending Company, and/or the pledgor, and no ability to pursue the Lending Company, and/or the pledgor to enforce them to duly perform their duties and obligations due. All such actions are carried out by the Issuer as the legal owner of the Loan Receivables according to the provisions of this Base Prospectus and the Transaction Documents.

2. Change of creditors priority

The outcome of judicial or insolvency procedure could overrule the creditors' priority in this Base Prospectus due to requirements of the law, meaning that the Noteholders of one Series of Notes could become equal creditors to Noteholders of other Series of Notes, thus all the proceeds the Issuer receives from all the Loan Receivables is distributed on *pro rata* basis or otherwise.

3. Certain costs may rank higher than payments to the Noteholder

While it is the Issuer's responsibility to transfer to the Noteholder all payments that have been received from the Lending Company, including the payments from the Borrowers received by the Lending Company, there are certain costs, such as taxes, Mintos' fees and recovery costs that rank higher than payments to the Noteholder. This means that the Noteholder would only receive payment after the payment obligations of a higher priority have been settled.

Also, there is a risk that the outcome of judicial or insolvency procedure could define other priority of payments, which differs from the priority in this Base Prospectus.

4. Liabilities that are not Series specific will be allocated to all Series of Notes proportionally

If there are higher priority costs, i.e., taxes, fees and recovery costs, related to the specific Note, then these will be covered from the payments due to the Noteholders according to the Priority of Payments defined in this Base Prospectus. Where the liability is not Series-specific, for example, legal costs, the liability will be allocated to all Series of Notes proportionally unless otherwise defined by the Priority of Payments.

5. Due diligence and monitoring performed by Mintos and Mintos risk score allocated are limited in scope, do not address all material risks, and do not provide any assurance or indemnification

Before the Lending Company joins Mintos and during the cooperation, Mintos carries out due diligence and assigns Mintos risk score. It is important to point out that these processes are limited in scope and do not address all material risks relating to an investment in the Notes, but rather reflect the view of Mintos at the time the due diligence and monitoring are performed.

Even if Mintos continuously measures the accuracy of Mintos risk score and evaluates the need to adjust the methodology when new data is obtained, these processes might not guarantee any further performance of the investment.

Mintos neither provides any assurance or guarantee for the Noteholder nor indemnifies or holds Noteholder harmless for any loss or adverse consequence directly or indirectly arising from the Noteholder relying upon Mintos risk score or due diligence and monitoring performed. Basing investment decisions solely on Mintos risk score could lead to a partial or full loss of invested amounts.

6. No specific securitisation laws in Latvia

There are no dedicated laws and regime in Latvia addressing specific special purpose vehicle issuer insolvency or limited recourse concepts at the date of this Base Prospectus. Mintos believes the Terms and Conditions of the Notes are set up and drafted as having legal force and addressing such concerns as legally binding contractual obligations. There might be circumstances that influence such legal construction, including, but not limited to the court ruling, or new or modified legal enactments. Eventually, this could lead to delayed payments or partial or full loss of the amount invested in the Notes.

7. Repurchase could impact planned return

The Lending Company may repurchase the Loan Receivables from the Issuer at any time at their then outstanding principal value without any penalty or other compensation. This may happen, for example, in cases where the Lending Company can acquire lower cost financing from other sources and wishes to refinance the Loan.

The Lending Company not only has a right to repurchase, but also has an obligation to repurchase the Loan Receivables from the Issuer upon the occurrence of certain events specified in the Cooperation Agreement. The Lending Company may become obliged to repurchase one or several affected Loan Receivables, as well as there are certain events that may trigger the obligation to repurchase all the Loan Receivables. Occurrence of a Material Event of Default under the Cooperation Agreement triggers the obligation to repurchase all the Loan Receivables.

If the repurchase right is exercised by the Lending Company or if the repurchase obligation arises, the relevant Series of Notes will be redeemed early in full or in part once the Issuer has received the repurchase price from the Lending Company. The Noteholders' return on the investments in the Notes which are redeemed due to the repurchase will be lower than the initially planned return.

8. New regulations introduced in the future could impact the Noteholder and Mintos

Due to several reasons, such as improvements in computer technology, the financial crisis of the past decade and a greater focus on preventing the legalisation of illegally gained proceeds, the financial industry over the last years has experienced the introduction of several new regulations. With further developments and adoption of technologies, jurisdictions, either where Noteholders or Mintos Group are domiciled are likely to introduce new regulations or administrative interventions that could relate to Notes or online marketplaces such as the Platform. Such regulation in the future, for example, could enhance investors' protection measures, limit access to Notes to only qualified or sophisticated Noteholders, limit the proportion of the portfolio that can be invested through Notes or introduce any other restricting measures.

Furthermore, the introduction of new regulations or significant changes to the existing regulations could impact the profitability, cost base and future operations of Mintos. Failure to comply with regulation could lead to, among other things, lawsuits, administrative enforcement actions, penalties, and revocation of licences and authorisations. Eventually, this could lead to delayed payments or partial or full loss of invested amounts under Notes.

9. New regulation in relation to taxes could impact the expected return for the Noteholder

In the event that new regulation is introduced, or existing regulation or its interpretation changes so that the Issuer and/or Mintos needs to withhold additional taxes before making payments to the Noteholder, and the Issuer and/or Mintos is required to withhold any transfer tax, stamp duty and/or financial transactions tax, this could impact the expected return on investment for the Noteholder. Similar developments in the Noteholders' tax residence country can lead to the same consequences.

10. Notes have limited liquidity and transferability

The Notes are illiquid securities and there is no active market for them, and the Notes are not admitted to any trading venue. The potential buyers and transferees are limited only to other Mintos' clients who are registered on the Platform. Which all means that the Noteholder might need to offer the Notes with a significant discount and hence would not meet the expected return on the investment, or might even be unable to sell them at all during a shorter or longer period of time. Furthermore, to protect Noteholders that use automatic investment solutions from making investment decisions, Mintos may restrict the execution of orders to sell the Notes according to the terms and conditions of the agreements between the Investors and Mintos.

The Noteholder should therefore only invest in Notes that the Noteholder is comfortable with holding to maturity.

11. An undiversified investment portfolio may lead to greater exposure to the Lending Company and country-specific risks than a well-diversified portfolio

Investment in a single Note, Notes issued in relation to the Lending Company or Notes with underlying Loans related to one country means that the performance of the portfolio and risk exposure depends on that Note, the Lending Company, country and currency risk.

Mintos encourages its customers to build a well-diversified portfolio and provides several tools to automate investing in Notes, making this easier.

12. Investing in Notes issued in other currencies increase the Noteholder's exposure to currency risk

If a Noteholder invests in Notes denominated in a currency that is different from the currency that the Noteholder earns and/or spends, the return on the investment could be significantly impacted by the fluctuations in the exchange rate between those currencies. This means that if the underlying currency depreciates significantly, the Noteholder could lose part of the investment, and if the currency appreciates significantly, the Noteholder could earn a higher return on investment.

13. Notes are not bank deposits

Investment in Notes does not have the status of a bank deposit in Latvia or elsewhere, and is not within the scope of the deposit protection or guarantee scheme operated by the Republic of Latvia or any other jurisdiction.

○ ***RISKS SPECIFIC TO TRUST AND/ OR TRUSTEE***

1. Various events and failures could cause situations where Trustee is not honoring its obligations

Taking into consideration that each time a Borrower makes repayments the funds are firstly accumulated in the Trust account before being released to the Lending Company, there is a risk that the Trustee might suddenly stop effectively honoring its obligations under the Trust Agreement and breaching its provisions, resulting in missing repayments to the Noteholder. This could lead to delays in repayments and partial or full loss of invested amounts. In case of breaching the Trust Agreement the Trustee (or the responsible third party Trust administrator) could be held criminally liable.

2. The Trustee is not able to provide Trust services

Various factors can negatively impact the Trustee's ability to provide Trust services, which in turn could lead to delayed repayments for the Loan Receivables to the Lending Company and further on to the Issuer and as a result, in turn to the Noteholder or even partial or full loss of the invested amount. Some of the factors are:

- **Macro-environmental factors** - Various macro-environmental factors, such as recession, military conflict, natural disasters or pandemic, could delay repayments to the Noteholders.
- **Currency control restrictions or lack of corresponding banks chain** - The local government could introduce certain currency control restrictions, leading to a situation where the Trustee is not able to make payments to the Lending Company or the Issuer that is a foreign entity and/or to an account in a foreign financial institution. Alternatively, corresponding bank relations between the Trustee and a bank or payments services provider which maintains the Issuer's operational accounts could be dramatically amended or terminated, eliminating the Trustees ability to make payments towards the Issuer. This may negatively affect payments to the Issuer and thus further distributions to the Noteholder.
- **Technological or management errors** - There is a possibility that due to failures in technological systems, management errors or problems in administration of internal controls, the payments to the Noteholders could be delayed.
- **Freezing, seizing or closing of the Trust collection account** - The accounts that the Trustee uses for Loan Receivables collection might be seized, blocked, or closed for a

number of reasons, including anti-money laundering and know your client breaches, sanctions violations, state authorities' arbitrary actions, or insolvency of the Trustee. Inability to use the Trust accounts could restrict the Lending Company's ability to collect Borrowers' repayments and the Trustee's ability to transfer funds to the Lending Company or the Issuer for an indefinite time, or even lead to insolvency or bankruptcy of the Lending Company.

- **Non-compliance with regulations could lead to revocation of Trustees' license** - To provide services to clients, the Trustee, as the operator of the Trust, has received a credit institution license. The license could be suspended or revoked due to non-compliance with regulations by the Trustee. Loss of license by Trustee could lead to delayed payments to Noteholders until a new trustee is appointed.

3. The Trustee (or the responsible third party - Trust administrator) relies on information generated or provided to it by the Lending Company or the Issuer

In order to carry out its activities, the Trustee (or the responsible third party - Trust administrator) requires information provided by the Lending Company or the Issuer. If the Lending Company or the Issuer fails to deliver in a timely manner the information that corresponds to it or such information is not correct or is incomplete or is not accessible or has limited access to the Trustee (or the responsible third party - Trust administrator), the Trustee (or the responsible third party - Trust administrator) will not be able to carry out its activities or carry out them incorrectly, including failure to transfer the funds to the Lending Company or the Issuer, which would result in delayed payments or partial or full loss of the Noteholders invested funds.

4. Judicial court decision to transfer the Loan Receivables back to insolvent Lending Company

In the event of declaration of bankruptcy or insolvency of the Lending Company, it is unlikely but possible that the judge or court may question the irrevocability of the assignment of the collection rights contributed to Trust regarding the Loan Receivables and the distinction of the assets of the Lending Company and determine that the rights to collect the Loan Receivables should be returned to the Lending Company, therefore the Trust would not be able to transfer the funds directly to the Issuer, resulting in partial loss of the Noteholders invested funds.

5. Cross-risks applicable to the Trust/ Trustee

Under the regular course of business, each time the Borrower makes repayments to the Lending Company, the funds are firstly accumulated in the Trust account before being released to the Lending Company. Then, the Lending Company transfers the funds to the Issuer, which in turn makes repayments under the relevant Series of Notes to the relevant Investor via Mintos. The repayments are received into the relevant Investment Account.

In a situation when the Lending Company has defaulted, the Trustee is informed to redirect the Borrower repayments to the Issuer directly, which then, in turn, makes repayments under the relevant Series of Notes to the relevant Investor via Mintos.

Considering the pass-through nature of the Trust, the Trustee and its abilities to pay amounts due to the Noteholders under the Note are exposed to all the risks listed above in '*RISKS SPECIFIC TO THE UNDERLYING LOAN*', '*RISKS SPECIFIC TO LOAN SERVICING*'.

Final Terms

Each Series of Notes will be issued on the terms and conditions set out under the section entitled '9. TERMS AND CONDITIONS OF THE NOTES' of this Base Prospectus as completed by the applicable Final Terms. The Final Terms will be published on the website www.mintos.com. A form of applicable Final Terms is set out under the section entitled '11. APPLICABLE FINAL TERMS' of this Base Prospectus.

Other relevant information

This Base Prospectus must be read and construed together with any supplements to this Base Prospectus and with any information incorporated by reference in this Base Prospectus and, concerning any Series of Notes, must be read and construed together with the relevant applicable Final Terms.

Unauthorised information

No person has been authorised to give any information or to make any representation not contained in or not consistent with this Base Prospectus or any other document entered into concerning the Programme, any information supplied by the Issuer, or such other information as is in the public domain and, if given or made, such information or representation should not be relied upon as having been authorised by the Issuer.

Mintos has not authorised the whole or any part of this Base Prospectus and does not make any representation or warranty, or accept any responsibility as to the accuracy or completeness of the information contained in this Base Prospectus or any responsibility for the acts or omissions of the Issuer or any other person in connection with the issue and offering of the Notes, nor does Mintos or any of its shareholders, directors, affiliates, advisers or agents take any responsibility for the acts or omissions of the Issuer or any other person in connection with the issue, offering and sale of the Notes.

Restrictions on distribution

The distribution of this Base Prospectus and any Final Terms, and the offer, sale and delivery of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus or any Final Terms comes are required by the Issuer and Mintos to inform themselves about and to observe any such restrictions. In particular, Notes have not been and will not be registered under the Securities Act. Subject to certain exceptions, Notes may not be offered, sold or delivered within the United States or to U.S. persons. Neither this Base Prospectus nor any Final Terms constitute an offer or an invitation to subscribe for or purchase any Notes and should not be considered as a recommendation by the Issuer, Mintos or any of them that any recipient of this Base Prospectus or any Final Terms should subscribe for or purchase any Notes. Each recipient of this Base Prospectus or any Final Terms will be taken to have made its own investigation and appraisal of the condition (financial or otherwise) of the Issuer. Mintos has not provided any financial or taxation advice in connection with the Programme or the Notes.

Programme limit

The maximum aggregate nominal amount of all Notes from time to time outstanding under the Programme will not exceed EUR 40 000 000 (or its equivalent in other currencies).

Language

The language of this Base Prospectus is English. Certain legislative references and technical terms

have been cited in their original language so that the correct technical meaning may be ascribed to them under applicable law.

Ratings

No Series of Notes issued under the Programme will be rated by any credit rating agency.

Currencies

Unless otherwise indicated, the financial information contained in this Base Prospectus has been expressed in euro. The Issuer's functional currency is euro, and the Issuer prepares its financial statements in euro.

Third-party and market share data

This Base Prospectus contains information regarding business of the Issuer, Mintos, the Lending Company and others, and the industry in which they operate and compete. Where third party information has been used in this Base Prospectus, the source of such information has been identified. Statistical information included in this Base Prospectus has been derived from official public sources, including the statistical releases. All such statistical information may differ from that stated in other sources for a variety of reasons, including the use of different definitions and cut-off times. This data may subsequently be revised as new data becomes available and any such revised data will not be circulated by the Issuer to Investors who have purchased the Notes. In some cases, independently determined industry data is not available. In these cases, any market share data included in this Base Prospectus is referred to as having been estimated. All such estimates have been made by either the Issuer or the Lending Company using its information and other publicly available market information. Each of the Issuer and the Lending Company believes that these estimates of market share are helpful as they give prospective Investors a better understanding of the industry in which the Issuer or the Lending Company operates as well as its position within that industry. Although all such estimations have been made in good faith based on the information available and the Issuer's or the Lending Company's knowledge of the market within which it operates, neither the Issuer nor the Lending Company can guarantee that a third-party expert using different methods would reach the same conclusions. Where information has not been independently sourced, it is the Issuer's or the Lending Company's own information.

No incorporation of website information

The Issuer is affiliated with Mintos and their website is www.mintos.com. Unless specifically incorporated by reference into this Base Prospectus, information on the website or any other website mentioned in this Base Prospectus or any website directly or indirectly linked to these websites has not been verified, is not incorporated by reference into, and does not form part of, this Base Prospectus, and Investors should not rely on it.

4. TRANSACTION OVERVIEW

○ THE DESCRIPTION OF THE TRANSACTIONS IN RELATION TO THE NOTES

▪ The Issuer, Mintos and the Lending Company

The Issuer, Mintos and the Lending Company have entered into the Transaction Documents for the issue and sale of the Notes as described in this Base Prospectus.

▪ Transfer of the Loan Receivables by the Lending Company to the Issuer

The Lending Company makes, from time to time, an irrevocable offer to sell the Loan Receivables by using the API connection set up with Mintos.

The offer for sale of the Loan Receivable is accepted, on behalf of the Issuer, by Mintos generating the Transfer Document. Mintos verifies the information provided through the API. The Loan Receivables are required to meet certain eligibility criteria to form a 'pool' of Loan Receivables to serve as the underlying assets for a particular Series of Notes and to satisfy other conditions precedent.

Payment for the acquired Loan Receivable is subject to placement of the Series of Notes.

That means the Loan Receivables transferred to the Issuer and backing the Series have characteristics that demonstrate capacity to produce funds to service any payments due and payable on the Notes.

The Lending Company retains in relation to each Loan the 'skin in the game' in keeping 10% of the principal amount outstanding.

The Borrowers are not notified of the transfer of the Loan Receivables. The Lending Company continues to service the Loan Receivables.

- **Issue of Notes**

Once the Issuer has a pool of the Loan Receivables, Mintos publishes the Final Terms for the relevant Series of Notes on the Platform on behalf of the Issuer. This process is automated and takes place in real-time.

As of the Issue Date, the Notes are publicly offered by the Issuer through the Platform. Investors can purchase Notes from the Issue Date until the Maturity Date of the Notes provided in the Final Terms or until the time when the Notes are fully sold to Investors by the Issuer, whichever occurs earlier. Information about the offer results of the Notes is published on the website www.mintos.com in real time starting from the Issue Date of the Notes. Subscriptions will not be reduced, which means refund of amounts paid in excess does not apply. The Issuer does not expect any conditions to which offer of the Notes would be subject.

To purchase Notes from the Issuer, the Investor registered on the Platform submits an investment order using the "Primary market" section of the Platform, indicating the amount of money that the Investor wishes to invest in particular Notes. The Investor can also use automated portfolio management services provided by Mintos to purchase the Notes. The process for purchasing Notes is automated and takes place in real-time. When the investment order is accepted by the Platform, Mintos debits cash funds from the Investor's cash account with Mintos in exchange for delivery of the Notes to the Investor's financial instruments account with Mintos. Paying for the Notes and delivery of the Notes take place simultaneously. The Notes allotted are available as soon as the investment order is executed by Mintos, by means of the Investor's profile on the Platform. Further alienation of Notes could be done as soon as available on the Investor's Investment Accounts.

Minimum subscription amount is one Note. Maximum subscription amount is up to the Aggregate Nominal Amount for the relevant Series of Notes, but subject to the nominal amount of the Notes being available for purchase from the Issuer as at execution time of the investment order at Mintos.

No expenses are expected to be charged to the Investor by the Issuer when purchasing Notes. Currently there is no financial transaction tax to be applied by the Issuer and/or Mintos to the Investor in subscribing or purchasing any Note.

The Issuer expects that net proceeds of any Series of Notes will equal the Aggregate Nominal Amount of the relevant Series.

▪ Payments under the Notes

Interest specified in the Final Terms will begin to be calculated and accrue from (and including) the first day when the Investor has acquired the Notes from the Issuer and the Notes are booked by Mintos in the Investor's financial instruments account.

The Interest and principal payments under the Notes are linked and contingent on corresponding payment being made under the pool of the underlying Loan Receivables. Notes may have different payments which reflect the different Loans issued by the Lending Company, such as:

- fully amortising Notes – the principal amount outstanding of the Notes and interest are regularly paid during the term of the Notes so that the principal amount outstanding of the Notes is zero at maturity of the Notes;
- partially amortising Notes (or 'balloon' Notes) – the principal amount outstanding of the Notes and interest are regularly paid during the term of the Notes but, a 'balloon' of principal amount outstanding of the Notes remains which is paid at maturity of the Notes;
- interest only Notes – only the interest is regularly paid during the term of the Notes, whilst the principal amount outstanding of the Notes is paid at maturity of the Notes; and
- bullet Notes - both the principal value outstanding of the Notes and interest are paid at the maturity of the Notes.

▪ The Buyback Obligation

The **Buyback Obligation** is the obligation, if any payment under any of the relevant Loans is delayed by more than 60 days, for the Lending Company to repurchase the relevant Loan Receivables from the Issuer, provided that the Buyback Obligation is stated as being applicable in the Final Terms.

If the Buyback Obligation is triggered, the relevant Series of Notes will be redeemed early in part once the Issuer has received the buyback price from the Lending Company. The buyback price is the nominal value of the Loan Receivable as it is at the time when the Buyback Obligation arose, which means the nominal value of the principal outstanding and the interest and other ancillary claims assigned to the Issuer that form part of the Loan Receivable up to the date when the Buyback Obligation was triggered.

▪ Repurchase

Repurchase is the right or obligation for the Lending Company to repurchase the Loan Receivable(s) from the Issuer on the occurrence of certain events specified in the Cooperation Agreement.

The Repurchase rights the Lending Company may exercise at any time with respect to any Loan

Receivable(s). The repurchase price is the nominal value of the Loan Receivable, which means the nominal value of the principal outstanding and the interest and other ancillary claims assigned to the Issuer that form part of the Loan Receivable up to the date when the Repurchase right was exercised, as it is at the time when the Repurchase right was exercised.

If during the validity of the Cooperation Agreement the Lending Company exercises its rights to repurchase individual Loan Receivables of performing loans (loans that are not delayed by the Borrower), the Lending Company shall be obliged to repurchase the same amount of the Loan Receivables on non-performing loans with a delay of 1 to 59 days (if any) and on non-performing loans with a delay of 60 and more days (if any). Namely, if the Lending Company repurchases 10% (ten per cent) of the Loan Receivables on performing loans, the Lending Company shall be obliged to repurchase 10% (ten per cent) of the Loan Receivables on non-performing loans with a delay of 1 to 59 days and 10% (ten per cent) of the Loan Receivables on non-performing loans with a delay of 60 and more days. The Loan Receivables of non-performing loans subject to the repurchase are randomly selected by the Lending Company at its own discretion. If the Lending Company fails to repurchase the Loan Receivables of non-performing loans as per this clause, Mintos shall randomly select the Loan Receivables on non-performing loans subject to the repurchase by the Lending Company.

The Repurchase obligation arises either with respect to one or several Loan Receivables or it may as well arise with respect to all Loan Receivables.

Individual affected Loan Receivable(s) must be repurchased by the Lending Company according to the Cooperation Agreement if the following occurs:

- (a) termination by the Lending Company of a Loan Agreement from which the Loan Receivable arises;
- (b) in case any of the following events occur:
 - if the Loan Agreement from which the respective individual Loan Receivable arises is or shall for any reason and by any means become invalid or unenforceable whether in whole or in part or it becomes impossible or unlawful for any party to any such document to perform its obligations under such documents; or
 - if, in the reasonable opinion of Mintos and/or the Issuer and/or the Lending Company, the Borrower's fraud or fraudulent misrepresentation has been established;
- (c) with respect to the affected Loan Receivable that is determined in the sole discretion of Mintos, in case if any of the following events occur:
 - if certain representations or warranties of the Lending Company provided in the Cooperation Agreement with respect to the Loan Receivable is or proves to have been untrue when made or deemed to be made;
 - if a breach of an obligation of the Lending Company to comply with certain restrictions on amendments to the Loan Agreements are not complied with or if the Lending Company breaches its duties as a servicer of the Loan Receivables; or
 - if it is or becomes unlawful for the Lending Company to assign or offer the assignment of any new Loan Receivables according to the laws applicable to the Lending Company and/or Loan Receivables and/or to perform any of its obligations under the Cooperation Agreement in relation to the assignment or servicing of the Loan Receivable, for example in case of loss of licence by the Lending Company which affects the already executed assignments or servicing of the Loan Receivables (i.e. having a retroactive effect).

The above might not be a precise wording of the Cooperation Agreement provisions, however even if the wording is different the description of the essence remains correct.

In case a Material Event of Default under the Cooperation Agreement has occurred (see paragraph: THE TRANSACTION DOCUMENTS - The Cooperation Agreement - Material Events of Default), Mintos is entitled to request the Lending Company to repurchase all the Loan Receivables transferred to the Issuer. Mintos has the discretion to request or not to request the repurchase of all the Loan Receivables. If the full repurchase is requested, repurchase obligation must be met by way of paying the repurchase price within the time period, which in most cases is 5 (five) Business Days, but may be set as a longer period of time up to no more than 6 months, after the notice has been given to the Lending Company regarding the repurchase and the final calculation of the amounts payable is sent to the Lending Company.

The repurchase price for the Loan Receivable which the Lending Company is obliged to pay to the Issuer for the Repurchase of the Loan Receivable is equal to the total amount of the remaining principal amount of the Loan Receivable and accumulated and outstanding interest, and other ancillary claims assigned to the Issuer that form part of the Loan Receivable up to the date when the Repurchase was triggered.

If Repurchase rights or obligation is triggered, the relevant Series of Notes will be redeemed early in full or in part once the Issuer has received the repurchase price from the Lending Company.

- **No credit enhancement**

The Notes have no credit enhancements and no liquidity support in relation to payment of interest or principal.

The Issuer, as a special purpose entity, has no obligation to make any payment on the Notes unless sufficient funds have been received from the Lending Company. The Lending Company, in turn is dependent on payments on the relevant Loans from the Borrowers.

- **THE TRANSACTION DOCUMENTS**

The information in this section is a summary of certain features of the Transaction Documents provided for information purposes, and will not be treated as the full binding text of the relevant agreement.

- **The Cooperation Agreement**

General

The Cooperation Agreement contains the agreement between the Issuer, the Lending Company and Mintos on the matters outlined in the above section entitled '*THE DESCRIPTION OF THE TRANSACTIONS IN RELATION TO THE NOTES*'.

Sample of the Loan Agreement is provided in the schedule to the Cooperation Agreement. There are also other schedules to the Cooperation Agreement.

This Base Prospectus as submitted to the NCA for approval is not a schedule to the Cooperation Agreement but is agreed on in writing by the same parties as those of the Cooperation Agreement no later than on or about the date of submission of this Base Prospectus to the NCA for approval.

Mintos

Mintos acts as an assignment agent, placement agent, calculation agent, transfer agent and paying agent of the Issuer in relation to the Notes.

Loan servicing

The Issuer has appointed the Lending Company as the servicer with service rights which includes any and all rights to:

- 1) service the Loan Receivables;
- 2) all agreements or documents creating, defining or evidencing the servicing rights to the extent they relate to the servicing;
- 3) collect all payments under the Loan Agreements; and
- 4) maintain and use any and all servicing files and other data and information about the Loan Receivables, and about the past, present or prospective servicing of the Loan Receivables.

Within the scope of servicing obligations, the Lending Company has undertaken certain obligations, including:

- 1) to collect and process payments from the Borrowers;
- 2) to transfer payments from the Borrowers to the Issuer;
- 3) not to assign, transfer or create any encumbrance over any Loan Receivables; and
- 4) to take all reasonable actions to ensure that the Loan Receivables are not treated as the Lending Company's property and any pledge rights, prohibitions or other encumbrances in favour of the Lending Company, its creditors or administrators would not be attributed to the Loan Receivables.

The appointment of the Lending Company as the servicer can be terminated by written mutual agreement between the Issuer, the Lending Company and Mintos only when the Issuer has settled all obligations under the Notes towards the Noteholders.

Subject to certain terms and conditions, the Issuer may, by notice to the Lending Company and Mintos terminate the appointment of the Lending Company as the servicer and appoint another person as the servicer of the Loan Receivables.

Extensions

The Lending Company may modify any of the Loan Agreements without approval of the Issuer, provided that payments from the relevant Borrower remain unchanged.

If provided in the Final Terms, the Lending Company may extend the repayment schedule of one or more of the Loan Agreements without the consent of the Issuer or the Noteholders provided that (a) there is no event of default under any of the Loans Agreement, (b) any change is restricted by 'Limit on the number of Extensions' and 'Total maximum time limit of Extensions' as specified in the Final Terms and (c) any change is notified on the Platform to the Noteholders.

The Lending Company may also extend the repayment schedule of one or more of the Loan Agreements without the consent of the Issuer or the Noteholders to comply with any new law or regulation, amendment of any existing law or regulation, or any decision of any government or municipal provided that any change is notified on the Platform to the Noteholders

Representations and warranties

The Lending Company has made certain representations and warranties relating to the Loan Receivables including:

- (a) all necessary and required procedures, checks and assessments have been performed to ensure the validity and enforceability of each of the Loan Agreements;
- (b) information and documents provided regarding each of the Loans, the Loan Agreements and the Loan Receivables sold to the Issuer are true, correct and complete;
- (c) the Lending Company is the sole owner of the Loan Receivables being sold to the Issuer and has full rights and authority to sell and assign the Loan Receivables, which are free and clear of all liens, pledges or encumbrances, except for the Loan Receivables already pledged in favour of the Issuer under the Pledge Agreement.

The Lending Company has represented and warranted that it has all necessary licences, permits and authorisations to conduct its business activities.

Each of the Issuer, the Lending Company and Mintos has ensured the truth, correctness and completeness of all the documents and information being provided by it, as well as its compliance with applicable regulatory requirements.

Covenants

The Lending Company has covenanted to comply with certain financial and other covenants.

Indemnities and penalties

The Lending Company has agreed to pay the contractual penalties to Mintos for breach of any of the obligations indicated in the Cooperation Agreement.

Each of the Issuer, the Lending Company and Mintos has indemnified the others against any and all losses suffered by or incurred by the others arising out of or resulting from its breach under the Cooperation Agreement.

Material Events of Default

The Cooperation Agreement contains an exhaustive list of events that constitute Material Events of Default. Material Events of Default under the Cooperation Agreement include events like:

- (a) non-payment by the Lending Company under the Cooperation Agreement;
- (b) the Lending Company non-compliance with the adjusted equity ratio set in the Cooperation Agreement;
- (c) events with respect to various other obligations: failure to fulfil some other obligations of the Cooperation Agreement; occurrence of a material event of default under other obligations referred to in the Cooperation Agreement, including but not limited to failure of the Lending Company to provide to Mintos and to the Issuer rights certificate, under which the Issuer is appointed as the beneficiary in the first place of Irrevocable Administration and Source of Payment Trust Agreement number 752155 with all annexes, exhibits, schedules and amendments to it (if any) (hereinafter in this section - the Trust);
- (d) an event of default, as such term is defined in this Base Prospectus, occurs, which such event of default is caused by fault, action or failure to act of the Lending Company, and/or Pledgor;
- (e) any security documents (if any) having become invalid, unenforceable or likewise events occurring with respect to them as agreed in the Cooperation Agreement;
- (f) insolvency or insolvency proceedings of the Lending Company or any Pledgor occurs;
- (g) a creditor's process as agreed in the Cooperation Agreement is taking place;
- (h) misrepresentation by the Lending Company with respect to the information in this Base

- Prospectus that is sourced from the Lending Company and the later is responsible for;
- (i) cross-default and cross-acceleration or certain financial liabilities;
 - (j) occurrence of circumstances in the area of AML (Anti Money Laundering) or sanctions non-compliance that require termination of cooperation with the Lending Company;
 - (k) cessation of business by the Lending Company.

The above is not a precise wording of the Cooperation Agreement provisions on the Material Event of Default, it is just a description of their essence.

If any Material Event of Default occurs, Mintos may stop:

- (a) the execution of sales of the Loan Receivables to the Issuer;
- (b) the placement of the Notes on the Platform; and
- (c) the processing of submitted but not yet executed orders for subscription of the Notes.

Upon occurrence of a Material Event of Default Mintos may require the Lending Company to Repurchase all the Loan Receivables transferred to the Issuer.

Also, if a Material Event of Default occurs Mintos may change the servicer of the Loan Receivables.

Whether to exercise any or all of the above rights that Mintos has if any Material Event of Default occurs, is a decision that Mintos makes, acting as an authorized representative of the Issuer in its best interests. It may be that even if a Material Event of Default has occurred, it may be cured or does not negatively affect the ability of the Lending Company to comply with its obligations under the Cooperation Agreement, or there are other legitimate reasons why Mintos should not exercise the said rights, and thus none of the said rights are exercised.

Term and termination

The Cooperation Agreement continues until all liabilities of the Issuer, the Lending Company and Mintos according to its provisions are fully satisfied.

Governing law

The Cooperation Agreement and any non-contractual obligations arising out of, or in connection with, it is governed by and will be construed in accordance with the laws of the Republic of Latvia.

▪ The Pledge Agreement

General

Parties to the Pledge Agreement (official legal title is the Commercial Pledge Agreement) (amended, restated and/or supplemented from time to time) are the Lending Company as a Pledgor and the Issuer as a Pledgee, (hereinafter in this section - the Parties).

According to the provisions of the Pledge Agreement in order to secure the payment obligations and performance of any other liabilities and obligations of the Pledgor towards the Issuer and/or Mintos under the Cooperation Agreement and Transfer Documents, the Pledgor pledges and grants first priority pledge, non-possessory pledge in favour and for the benefit of the Pledgee over the loan receivables from the list of Loan Agreements, indicated in the appendix 1 to the Pledge Agreement. The list must

contain those Loan Agreements which are referred to in the documents generated by Mintos whereby certain claims arising out of the Loan Agreements are to be transferred to the Issuer according to the Cooperation Agreement and which are either outstanding and awaiting borrower payments and/or are not yet repurchased or bought back by the Lending Company under the Cooperation Agreement. The pledge is a non-possessory pledge pursuant to the provisions of Articles 346, 354 and 355 of the LGTOC and other applicable provisions of the LGTOC, in favour and for the benefit of the Pledgee, over all pledged assets. The pledge is granted under Section Seventh, Chapter IV, Title Second of the LGTOC.

The list of Loan Agreements, indicated in the appendix 1 to the Pledge Agreement, shall be updated by the Pledgor and registered in the Sole Security Registry at the end of every one hundred eighty (180) calendar day period after the signing date of the Pledge Agreement.

Representations and warranties

The Pledge Agreement contains several representations and warranties made by the Pledgor. The Pledgor has represented and warranted, including, but not limited to the Issuer that:

- (i) the Pledgor has full rights with respect to the pledged assets (i.e. the object of the pledge);
- (ii) the object of the pledge is not sold (assigned), gifted, provided as a consideration, pledged to any other third person;
- (iii) there are no disputes regarding the ownership or restrictions or prohibitions for alienation, pledge, use or direction of recovery thereof towards the object of the pledge, it is free from claims of third persons and it is not subject to a court freeze or similar restriction;
- (iv) the Pledgor warrants and guarantees to the Pledgee that when entering into any Loan Agreement with the Borrower, such Loan Agreement and the potential loan receivables shall be permitted to be pledged and assignable in compliance with the terms of the Pledge Agreement;
- (v) the Pledgor has unrestricted right to pledge under the Pledge Agreement the loan receivables deriving from the Loan Agreements comprising the object of the pledge.

Obligations of the Pledgor

The Pledge Agreement contains several obligations of the Pledgor. The Pledgor has committed to the following main obligations for as long as the obligations of the Pledgor remain outstanding including but not limited to:

- (i) to maintain the material possession of the object of the pledge;
- (ii) the Pledgor shall be responsible towards the Pledgee not only for the debt of the Pledgor itself, but also for ancillary claims, due to losses caused by non-fulfilment, improper fulfilment and/or delay of liabilities of the Pledgor and/or court costs;
- (iii) to file the Pledge Agreement for registration with the Sole Security Registry within five (5) business days following the date of signing of the Pledge Agreement by both parties and deliver to the Pledgee evidence of such filing within the next business day succeeding the registration date. The Pledgor agrees to carry out all required actions and payments of fees necessary to complete registration of the Pledge Agreement within the applicable time periods.

Enforcement of the Pledge Agreement

The Pledgee has a right to enforce the pledge and foreclose on the object of the pledge at any time after the occurrence of the enforcement event. The fact of non-fulfilment or improper fulfilment of liabilities of the Pledgor shall be established by the Pledgee.

The Pledgee has the right to sell the object of the pledge for a free price, without intermediation of the court and organisation of an auction, if the liabilities secured by the pledge are not properly fulfilled within a time period of 30 (thirty) days after submission of a notification to the Sole Security Registry.

Governing Law

The Pledge Agreement and any non-contractual obligations arising out of, or in connection with, it is governed by and shall be construed in accordance with the laws of the United Mexican States.

▪ The transaction documents regarding the Issuer as the beneficiary of the trust

The Cooperation Agreement requires that the Issuer becomes the first beneficiary (*Fideicomisario en Primer Lugar*) of the trust that is established according to the irrevocable management trust agreement No.4725 concluded on December 14, 2021 by and between the Lending Company as trustor and administrator, Banco Invex. S.A., Institución de Banca Múltiple, Invex Grupo Financiero as trustee and Tecnología en Cuentas por Cobrar S.A.P.I. de C.V. as master administrator.

The purpose of the transaction documents regarding the Issuer as the beneficiary of the trust is to ensure that in a situation when the Lending Company has defaulted, the trustee is informed to redirect the Borrowers' repayments to the Issuer directly. During the regular course of business, each time the Borrower makes repayments to the Lending Company, the funds are firstly accumulated in the trust account before being released to the Lending Company, and then, the Lending Company transfers the funds to the Issuer, which in turn makes repayments under the relevant Series of Notes to the relevant Investor via Mintos.

The transactional documents and any non-contractual obligations arising out of, or in connection with the trust, shall be governed by and shall be construed in accordance with the laws of the United Mexican States.

7. THE LENDING COMPANY

○ Business overview

The Lending Company is a financial company based in Mexico City, Mexico, incorporated on April 25, 2005, and operates under the laws of the United Mexican States as a variable stock entity. The Lending Company is registered in the commercial public registry under the Tax ID (RFC) registration number PUB0504284T8 and Commercial Entity Registration Number [*Folio mercantil*]: 334,151. No formal licence is required to provide lending services in Mexico. However, the Lending Company operates under surveillance and monitoring mandated by the Mexican Government Agencies (SAT, CNBV and CONDUSEF) for tax, AML and customer protection purposes. Every three years, the Lending Company must have its AML/CFT Technical Opinion renewed by the CNBV.

The Lending Company, operating under the brand of *Credifiel*, is specialising in the personal lending segment focused on employees of the Mexican government agencies. It is also one of top 5 largest payroll deduction loans (PDL) companies in the country. The Lending Company has a nationwide business presence with a network of 69 branches in every state of Mexico uniting more than 650 employees and 350 sales associates.

In Mexico, 7 out of 10 people still do not have access to credits in the traditional banking system which is a big market opportunity for the Lending Company. Within the general market, the Lending Company specifically focuses on employees of the state government agencies and institutions, such as the Ministry of Education, Healthcare sector, as well as government agencies at the federal level. The Lending Company's target group grossly encompasses 1.6 million employees. Public sector employees also tend to exhibit a lower turnover rate, thus ensuring higher loan repayment rates. As an inherent security, the loan repayments are also deducted directly from the employees' payroll.

Starting from 2020, the Lending Company started the development of its digital origination process, including digital signature, allowing them to approach customers without the need for face-to-face contact. Nevertheless, the overall strategy is to maintain a hybrid approach by running both digital and face-to-face loan issuance processes in parallel based on the different needs of each customer.

The Lending Company is also focusing on improving the diversification and its mix of funding sources overall. New sources of funding should allow the Lending Company to access cooperation agreements where government agencies' imposed lending rates are below the profitability needs dictated by the company's current funding conditions. As a result, the Lending Company expects to expand into new agreements with the government agencies helping them increase their market share and continue boosting Mexico's financial inclusion.

○ Loans

The main product of the Lending Company is payroll loans where the repayment is received directly from the Borrower's employer after it is deducted from salary. For now, the issuance is mainly done through direct sales in the branches spread out across the whole country. The average loan amount for payroll loans is EUR 1 500, and it ranges from EUR 100 to EUR 18 400. The average term of the payroll and direct debit loans is 36 months, and the term range is from 12 to 65 months. The average Annual Percentage Rate (APR) for payroll loans is 55% and it ranges between 25%-76%. The Loan currency is Mexican pesos (MXN).

Additionally, the Lending Company also offers direct debt loans, representing ~ 9% from its total portfolio. These are personal loans directed to active and retired employees. Collections are taken directly through an electronic deduction from the client's bank accounts, depending on its payment schedule. The average loan amount for direct debit loans is € 1,250, while it ranges from € 100 to € 4,200. The average payment period for this product is 23.7 months, within a range of 12, 18 and 26

months. The average annual percentage rate (APR) is 74.2% and it ranges between 60% to 107.4%. The Loan currency is Mexican pesos (MXN).

- **Financial information**

The latest available historical financial information of the Lending Company (prepared according to Mexican Financial Reporting Standards (MFRS)) is available on Mintos website (the currency used in the financial reports is Mexican peso (MXN)):

[Audited Financials 2022](#)

[Audited Financials 2023*](#)

**Beginning 2023 and in compliance with the provisions of MX FRS due to changes in accounting policies, the fees paid to brokers arising from loans issued were recognized as a deferred charge to be amortized against income (loss) for the period corresponding to the lifetime of the loan. These changes in accounting policy were recognized retrospectively beginning with the starting-up of operations, which was in fiscal 2021. Consequently, this change affected 2022 year income (loss) and Balance Sheet positions.*

- **Auditors**

The statutory auditors of the audited financial statements starting from 2021 is RSM Mexico Bogarin, S.C., incorporated under the laws of the United States of Mexico, having its registered office at Av. Río de Churubosco 276, Col. El Prado CP 0948000, Mexico City, Mexico, and registered with the commercial public registry of Mexico under RFC number RBO020620NDA.

- **Litigation**

The Lending Company (whether as a defendant or otherwise) is not and has not been involved in any governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the Lending Company is aware) in the 12 months preceding the date of this Base Prospectus which may have, or have in such period had, a significant effect on the financial position or profitability of the Lending Company.

- **Loans issuance process**

The loan issuance process in The Lending Company includes the following steps: (i) Customer registration and loan application, (ii) Customer identification, (iii) AML/CFT compliance, (iv) Fraud check, (v) Credit check, (vi) Loan agreement signing.

- **Loans underwriting**

The credit origination process is carried out through the different channels of the Commercial Department.

Each client is met face-to-face, thus ensuring higher quality of the Lending Company fraud prevention abilities. During the Loan application processing, the preliminary data in each application are cross-checked and supplemented. If needed, the potential borrower is asked for further information, preliminary fraud and blacklists/PEP/PIP list checks are performed. During the Loan application

processing, the most important steps are the verification of the potential borrower's eligibility for the Lending Company's financing, based on the information related to the borrower's financial, economic and reputational information. During the loan underwriting process the branch administrator assesses the acquired information and validates it against the official databases to ensure their authenticity. In addition to the assessment of the borrower's credit risk, The Lending Company evaluates the employer of the borrower as well.

The Lending Company's credit check focuses on the borrower's income and is supported by the findings from previously gathered personal information and fraud prevention checks. Due to the fact that the Lending Company has a cooperation with the employer, the salary information is received from the employer directly, thus ensuring validity of the information. After assessing the borrower's payment capacity, the decision whether to issue the loan is made. In case of a loan disbursement, the physical file is sent to the Lending Company's headquarters to compile the original files and be able to request the safeguard from the company contracted for custody correspondent.

For direct debit loans each application is being checked through credit reporting agencies afterwards FICO score is assigned, indicating borrowing capacity.

- **Loans issuance and disbursement**

A loan application is approved if the above-described checks are successful. After a message of a loan application approval is communicated to a customer, the customer signs the Loan Agreement, and the finance department disburses the Loan to the Borrower by way of bank transfer.

- **Debt recovery management**

The Lending Company has developed an efficient repayment collection process consisting of two main steps.

Regular repayment collection is done directly from the employer. The employer in advance sends a list of the expected collections for the respective period to the Lending Company. After the Lending company approves the list, the employer deducts the payment from the Borrower's salary and transfers it to the Lending Company.

Due to the fact that the Lending Company is working directly with employers which are mostly government agencies, in the case of a non-payment, the Lending Company's representative first discusses the situation directly with the employer to understand the reason and to find a solution.

In case of direct debit loans collection is done according to each Borrower's payday schedule, where through host-to-host bank lay-outs Lending Company has access to direct collection from the Borrower's personal bank account. Account debiting is pursuant to the instruction from the Borrower provided in connection with the loan application. The collection is made in the period in which Borrowers are paid their salaries or pension compensation. Request for collection is sent via bank layouts, the same which are uploaded by the bank. The bank then processes the files and as soon as the Lending Company receives confirmation of payment, then it reconciles the amounts which are in turn recorded in the system.

8. THE LOANS

○ Legal nature, jurisdiction and the applicable law of the Loans

The Loans are simple unsecured credits (payroll loans) made under the Loan Agreement. The principal amount and interest, and the VAT that is payable on the interest (if any), are payable in several amounts according to frequency as agreed with the Borrower during the term, with an obligation to repay the Loan in full at maturity. For the payroll loans as part of the loan documentation the Borrower instructs its employer to deduct part of its salary and pay it directly to the Lending Company, according to the payment schedule prescribed by the Loan Agreement. Payments should be made by the employer within a term not exceeding 30 (thirty) calendar days as of the day on which the Borrower receives its salary. While in the case of direct debit loans the payments are made by instruction to a banking institution in order to apply the discounts to the client's check account to which the Borrower's wage/pension is paid and are transferred to the Lending Company. In addition, the direct debit loans contract may contain an initial commission.

There are no fines and/or penalties set in the Loan Agreement that would be payable by the Borrower.

Early prepayment and advance payments are permitted, and there are no fees that the Borrower would have to pay in such an event.

The Loan Agreement is subject to the amendment and/or variation from time to time as provided in the section entitled '4. TRANSACTION OVERVIEW – *THE TRANSACTION DOCUMENTS* – Extensions' of this Base Prospectus.

The Loan Agreement is in the Spanish language. The Lending Company has provided an English translation of the Loan Agreement for informational purposes at www.mintos.com. Any discrepancy or difference due to the translation is not binding and has no legal effect. Neither the Issuer nor Mintos bears any responsibility for the accuracy of the English translation from the Loan Agreement in the Spanish language.

The Loan Agreement is governed by the laws and regulations of the United States of Mexico.

○ Repayment and maturity

Payroll Loans

Under the Loan, the Borrower makes payments of principal and interest on a pre-agreed schedule, the payments may be monthly or biweekly. The payments are made by the employer of the Borrower directly to the Lending Company, upon instruction of the Borrower to deduct the respective amount at the moment of payout of the salary. The annual percentage rate (APR) ranges from 25% to 76%. The term ranges from 12 months to 65 months with the average term being 36 months.

Direct Debit Loans

Under the Loan, the Borrower makes payments of principal and interest on a pre-agreed schedule, the payments may be monthly or biweekly. The payments are made in the period in which the Borrowers are paid their salaries or pension compensation. Request for collection is sent via bank layouts, the same which are uploaded by the bank. The bank then processes the files and as soon as the Lending Company receives confirmation of payment, then the reconciliation of the amounts are done and recorded in the system. The annual percentage rate (APR) ranges from 60% to 107.4% with an average

initial commission of 7.3%. The term ranges from 12 months to 24 months with the average term being 23.7 months.

Borrowers may repay the outstanding balance in full or in part in advance. There are no extra fees or charges applied in case of early repayment.

- **Economic environment in Mexico**

Mexico's GDP grew 3.7% year over year in the first half of 2023. This expansion can be attributed to: first, the United States, which shared a good first half (2.2% YoY) with Mexico, is helping the nation through trade and remittances; second, a boom in private consumption, thanks to increases in real wages and a strong labor market; third, gains due to nearshoring, observable through the recovery of business confidence and private investment; and, fourth, big infrastructure projects (new refineries, train, and other such projects), now clearly seen in government expenditure and construction.

Deloitte's growth forecast for Mexico increased to 3.5% for 2023 (2.8% before), and to 2.5% for 2024 (2.4% earlier). Also, we expect that some of these factors will not be around by the time we enter 2025, and as a result, we have revised our forecast for 2025 to 1.3%, from 1.8% previously.

Unfortunately, inflationary pressure will continue, making it hard to reach the central bank's goal of 3% in the near term (we expect headline inflation to be at 4.7% by year-end 2023 and at 4% by year-end 2024). These factors and their impact on each other will affect the path of monetary policy

- **General description of the Borrowers**

The Borrowers are mainly consumers, local residents who are currently employed at various Mexican government agencies. In this case, their payroll is coming from the government agency with whom the Lending Company has agreed to provide financing for its employees.

The Borrowers are more or equally split by gender with a diverse distribution of government agencies employment. A typical Borrower of the Lending Company has a monthly income of approximately EUR 500 which is grossly 2.5 times the country's average salary. By the law, the maximum Debt-to-Income (DTI) ratio can go up to 30%. An average obligor is around 36 years old, and ages can range from early 20s to mid 80s. With 69 branches of the Lending Company, the Borrowers are located across the whole country with close and physical company presence in every state.

- **Loan portfolio data**

As of 31 March 2024, the Lending Company's total portfolio of gross receivables including those under their administration was EUR 107.6 million. Around EUR 105.2 million of the portfolio is booked on the balance sheet of the Lending Company and around EUR 2.4 million are booked on the off-balance sheet as the Lending Company is servicing those loans. The Lending Company expects the position of these off-balance sheet loans be mostly gone by half of year 2024. 93% from the total portfolio is composed of payroll loans and 8% are direct debit loan portfolio. Below is the cross-section of the Lending Company's portfolio in terms of Days Past Due (DPD). It is common in the payroll loan industry to experience slight delays in repayments due to the operational deficiencies for some of the employers the Lending Company cooperates with. As a result, volatility in 1-30 DPD buckets is expected. As it can be seen from the table the current part of the portfolio is above 80% in most of the quarters and slightly below 90% including the portfolio late till 30 days.

9. TERMS AND CONDITIONS OF THE NOTES

The following are the terms and conditions of the Notes (the **Terms and Conditions**) which, together with the relevant Final Terms, will be applicable to the specified Series of Notes. The relevant Final Terms will complete the Terms and Conditions in relation to each Series of Notes.

Save where the context requires otherwise, references in the Terms and Conditions to **Notes** are to the Notes of one Series only, not to all Notes of other Series that may be issued under these Terms and Conditions.

In these Terms and Conditions, unless the context otherwise requires, words denoting the singular include the plural and *vice versa*.

In these Terms and Conditions, references to a specified Condition will be construed as a reference to that specific Condition of these Terms and Conditions as in force for the time being and as amended or supplemented from time to time.

The headings are inserted for convenience of reference only and will not affect the interpretation of these Terms and Conditions.

In these Terms and Conditions, reference to any other document will be construed as references to that document as in force the time being and as amended, supplemented or substituted.

The use of the word **including** means **including without limitation**.

Words and expressions used in these Terms and Conditions in capitals and not defined will have the meanings given to them in the Final Terms unless the context otherwise requires or unless otherwise stated.

DEFINITIONS

In these Terms and Conditions, unless the context otherwise requires, the following definitions will apply:

1. UNDERTAKINGS OF THE ISSUER

The undertakings in this Condition 1 remain in force for so long as any of the Notes are outstanding.

1.1 *Authorisations and compliance with laws*

The Issuer will promptly obtain, comply with and do all that is necessary to maintain in full force and effect any authorisation required under any law or regulation of Latvia to enable it to perform its obligations under the Notes or own title in the Loan Receivables, and carry on its business as it is being conducted. The Issuer will comply in all respects with all laws to which it is subject.

1.2 *Negative covenants*

Other than in connection with the Notes or as provided in the Base Prospectus, the Issuer will not:

- (a) sell, transfer, create any security over or otherwise dispose of any of the Loan Receivables;
- (b) incur or permit to be outstanding any financial indebtedness;
- (c) be the creditor in respect of any loan or any form of a credit to any person, other than the Lending Company or as permitted under the Transaction Documents;
- (d) give or allow to be outstanding any guarantee or indemnity to or for the benefit of any person in respect of any obligation of any other person;
- (e) carry on any business other than as a special-purpose pass-through undertaking established for the purpose of issuing and offering Notes, which are backed by the Loan Receivables, to Investors on the Platform; or
- (f) use the Issuer's Account for any purpose other than as provided in these Terms and Conditions and the Transaction Documents.

2. GENERAL

- 2.1 The Issuer under these Terms and Conditions together with the corresponding Final Terms has authorised the creation, issue and sale of the Notes to provide funds to the Issuer to purchase

Loan Receivables in accordance with the Purchase Agreement. The issue of Notes on the Issue Date specified in the Final Terms will correspond to the Issuer obtaining title to the Loan Receivables with a total amount equal to the Aggregate Nominal Amount.

- 2.2 Subject to Condition 25, the Issuer will obtain the title to the Loan Receivables on the condition that Mintos has determined that it has all the data it requires in relation to the Loan Receivables in accordance with the Purchase Agreement and the Transfer Document. The condition in no case implies either the Issuer or Mintos has any obligation to examine, verify or assess such data, including, through the use of any documentary evidence.
- 2.3 In each case where amounts of principal, Interest, other return and additional amounts (if any) are payable in respect of the Notes, the obligations of the Issuer to make any such payment will constitute an obligation only to account to the Noteholders on each date on which such amounts are due, for an amount equal to amounts of principal, Interest, other return and additional amounts (if any) actually received by the Issuer in relation to the Series Specific Loans.
- 2.4 Neither the Issuer nor Mintos are liable to make any payments in respect of the Notes other than as expressly provided in these Terms and Conditions.
- 2.5 Save for any fees payable to the Lending Company, Mintos and the Backup Servicer (if any), so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer of the Notes.

3. STATUS

- 3.1 The Notes constitute direct, general, unsubordinated and limited recourse debt obligations of the Issuer, which rank *pari passu* among themselves; and at all times these obligations rank at least *pari passu* with all other present and future direct, general, unsubordinated and limited recourse obligations of the Issuer arising from the present and further Series, except for those obligations as may be preferred by applicable law.
- 3.2 No proprietary or other direct interest in the Issuer's rights under or in respect of any of the Transaction Documents, the Purchase Agreement, the Transfer Document, the Pledge Agreement and the Loan Receivables, exists for the benefit of the Noteholders. Subject to these Terms and Conditions, no Noteholder will and will have any right to enforce any of the Transaction Documents and the Loan Receivables, or any direct recourse to any of the Lending Company, the Borrowers, and the pledgor under the Pledge Agreement.

4. FORM

The Notes are issued by the Issuer in registered form which are deposited and held as book-entry with Mintos.

5. ISSUE OF NOTES

The Notes are issued on the Issue Date in the Aggregate Nominal Amount, the Specified Denominations and the Specified Currency as specified in the Final Terms.

6. REGISTER, TITLE AND TRANSFERS

- 6.1 Mintos maintains an electronic register of Noteholders in accordance with the Cooperation

Agreement. No certificates will be issued to any Noteholder in respect of its holding.

- 6.2 Each Noteholder will (except as otherwise required by law) be treated as the absolute owner of any relevant Note for all purposes (whether or not it is overdue and regardless of any notice of ownership, trust, nominee ship or any other interest in the Note), and no person will be liable for so treating the Noteholder.
- 6.3 The Notes are held and freely transferred only between the financial instrument accounts at Mintos of Noteholders. No application has been or will be made to trade the Notes on any regulated market or any other trading venue, other than the Platform.
- 6.4 A transfer of any Note between the Noteholders may be affected by Mintos which may require as conditions to the transfer of (a) provision of documents and information, (b) payment of any transfer fee and (c) payment of any tax or other governmental charges, in each case, by the relevant Noteholder in accordance with terms and conditions of the Platform.

7. PRIORITY OF PAYMENTS

All funds received by the Issuer in relation to the Series Specific Loans, irrespective whether indicated as corresponding to the relevant Series Specific Loan or not, to the extent legally permitted, will be applied by the Issuer in the following order of priority:

- (a) *first*, in or towards payment of any amounts owed by the Issuer to any tax authority and required to be paid by the Issuer under or pursuant to the Notes;
- (b) *second*, in payment or satisfaction of all fees and penalty fees then due and unpaid to Mintos by the Lending Company under the Cooperation Agreement;
- (c) *third*, in or towards payment or satisfaction of all amounts then due and unpaid as commissions, fees, costs, charges, expenses and liabilities incurred or payable for servicing of the Loan Receivables if (i) the Issuer or any person designated by the Issuer has taken over the servicing of the Loan Receivables or (ii) any event of default of the Lending Company has occurred under any of the Transaction Documents and the Issuer acts for the purposes of recovery of funds includes filing a claim in the liquidation, insolvency or other administrative proceedings of the Lending Company, or enforcing any legal rights;
- (d) *fourth*, in or towards payment or satisfaction of any costs, including legal fees, for any action to recover funds, collect or restructure payment obligations, or taking any other actions to receive the Loan Receivables;
- (e) *fifth*, in or towards payment or discharge of all amounts which are due to the Backup Servicer, if any;
- (f) *sixth*, to the Noteholders in or towards the payment or discharge of all amounts of Interest and principal (Late Payment Interest or penalty fee or other assigned claim, if any, in the order that is set forth with respect to the particular Loan Receivable) then due and payable under or in respect of Series, Repurchase prices and/or Buyback Obligation prices, unless the Buyback Obligation price is discharged next according to 7 (g) below. Such payment/discharge being done by placing Series Specific Loans of all Series outstanding in the chronological order from the Series Specific Loan having oldest Payment Event to the Series Specific Loan having newest Payment Event, and

then applying pro rata approach on each particular Series level; and

- (g) *seventh*, to the Noteholders in or towards the payment of the Buyback Obligation price, if the Lending Company is late in making payments due to the Issuer for 14 (fourteen) days or another period that the Issuer finds material. Such payment/discharge being done by placing Series Specific Loans of all Series outstanding in the chronological order from the Series Specific Loan having oldest buyback related Payment Event to the Series Specific Loan having newest buyback related Payment Event, and then applying pro rata approach on each particular Series level; and
- (h) *eight*, to the Noteholders in or towards the payment of Notes' pro-rata portion of the Pending Payments Penalty Fee (if any). Such pro-rata portion shall be applied towards all impacted Series.

Neither the Issuer nor Mintos will be liable for applying the Priority of Payments, including for any minor errors, pursuant to Condition 25.

8. INTEREST

8.1 *Payment of Interest*

Each Note bears Interest from (and including) the date on which the Note is subscribed by the Noteholder. Interest will be calculated in accordance with Conditions 8.2 and 8.3, and payable in the Specified Currency in arrears on each Interest Payment Date.

8.2 *Accrual of Interest*

The Interest payable on any Interest Payment Date in respect of each Note is as follows:

$\text{Loan Interest Rate} \times \text{Series Specific Loan Principal Amount Outstanding} \times \text{Day Count}$

Where:

Series Specific Loan Principal Amount Outstanding, is the principal amount of the Series Specific Loans which is scheduled to be outstanding (even if the principal amount is redeemed later) on the day immediately before the Loan Interest Payment Date which is immediately before the Interest Payment Date.

Day Count, unless otherwise specified in the Final Terms, the actual number of days in the immediately preceding Interest Accrual Period, divided by 360.

8.3 *Accrual of Late Payment Interest*

The Late Payment Interest (if specified as being applicable in the Final Terms) payable on any day on which the Issuer receives the Principal Amount Due in respect of each Note is as follows:

$\text{Late Payment Interest Rate} \times \text{Principal Amount Due} \times \text{Day Count}$

Where:

Principal Amount Due, is the principal amount of a Series Specific Loan which was due on the Loan Repayment Date but not paid under the relevant Series Specific Loan provided that

there will be no Principal Amount Due if paid within the Grace Period; and

Day Count, unless otherwise specified in the applicable Final Terms, the actual number of days from (but excluding) the day on which the Principal Amount Due becomes due to (but excluding) the day on which the Issuer receives the Principal Amount Due or, if the Buyback Obligation or Repurchase applies, the relevant Payment Event, divided by 360.

Any payment of Interest or Late Payment Interest will be made only in accordance with Conditions 7, 11 and 25, and will be subject to the relevant Payment Event having occurred and the Issuer having actually received the corresponding payment under the Series Specific Loans.

9. PRINCIPAL REDEMPTION

9.1 Redemption at maturity

Unless previously redeemed or purchased and cancelled as specified in these Terms and Conditions, each Note will be redeemed at the then Principal Amount Outstanding on the Maturity Date.

9.2 Early Redemption

A proportion of the Principal Amount Outstanding of the Notes will be redeemed *pro rata* on each Redemption Date and at any other time any principal payment from any of the Series Specific Loans is received by the Issuer, without any prior notice to Noteholders. The Principal Amount Outstanding of the Notes redeemed will be in the same proportion as the proportion that the principal payment received by the Issuer has to the total principal amount outstanding of all the Series Specific Loans immediately before the principal payment. Any accrued but unpaid Interest associated to that proportion of the Principal Amount Outstanding of the Notes being redeemed will be paid at the same time. For the avoidance of doubt if the Principal Amount Outstanding of the Notes is redeemed, the nominal amount of each Note (as specified in Final Terms) is constant and remains unchanged.

Any repayment of the Principal Amount Outstanding will be made only in accordance with Conditions 7, 11 and 25, and will be subject to the relevant Payment Event having occurred and the Issuer having actually received the corresponding payment under the Series Specific Loans.

10. INTEREST AND PRINCIPAL DETERMINATION

10.1 Mintos determines (a) the amount of Interest and the Late Payment Interest (if any) payable in accordance with Condition 8 for each Interest Payment Date and (b) the amount of principal payable in accordance with Condition 9 on each Redemption Date and the Maturity Date, on its review of the following information:

- (i) the Payment Events which have arisen;
- (ii) aggregate payment amounts paid by the Borrowers which have been received from the Lending Company;
- (iii) the Buyback Obligation and Repurchase which have arisen; and

- (iv) the amounts then due and owed by the Issuer according to the Priority of Payments on the Interest Payment Date, the Redemption Date or the Maturity Date.
- 10.2 On each Interest Payment Date, each Redemption Date and the Maturity Date, Mintos on the Issuer's behalf will direct the payment of Interest and principal amounts to the Noteholders in accordance with Condition 11.
- 10.3 If after application of the Priority of Payments the Issuer has insufficient funds on any Interest Payment Date, any Redemption Date or the Maturity Date to make a payment of Interest or principal in full as required by Conditions 8 and 9, on behalf of the Issuer, Mintos at its sole discretion may decide that the Issuer pays part of the amount due or defers the payment until the full amount due is available, and such partial payment or deferral will not constitute an Event of Default under these Terms and Conditions.
- 10.4 All determinations, calculations and adjustments made by Mintos will be made in conjunction with the Issuer and will, in the absence of manifest error, be conclusive in all respects and binding upon the Issuer and all Noteholders.

11. PAYMENTS

11.1 *Payments of Interest and principal*

Subject to Conditions 7 and 12, the Issuer will, from any Available Distribution Amount:

- (a) pay the Interest on the Notes in accordance with Condition 8 on each Interest Payment Date; and
- (b) redeem the Notes in accordance with Condition 9 on each Redemption Date and the Maturity Date.

11.2 *Notes contingent payments*

All payments of Interest and principal by the Issuer under the Notes are dependent on the Issuer having received information on the Payment Event and the Available Distribution Amount being sufficient to make the relevant payments in accordance with the Priority of Payments. The Notes will not give rise to the Issuer having any payment obligation in excess of the foregoing.

Any overdue payment of Interest or principal under any of the Series Specific Loans that have been collected by the Lending Company (including by its external debt collection agency) will be paid to the Issuer as an Available Distribution Amount which will be paid in accordance with the Priority of Payments on the date determined by the Issuer at its sole discretion.

11.3 *Pending Payments Penalty Fee*

If, following any Payment Event, the Lending Company delays any payments due to the Issuer under any of the Transaction Documents by more than 10 days, the Lending Company will pay to the Issuer the Pending Payments Penalty Fee.

11.4 *Loan extension*

The Lending Company may modify any of the Series Specific Loans without approval of the

Issuer and the Noteholders, provided that payments from the relevant Borrower remain unchanged.

If 'Extension possibility' is provided in the Final Terms, the Lending Company may extend the repayment schedule of one or more Series Specific Loans by changing the Loan Interest Payment Date, the Loan Repayment Date and/or the Loan Final Repayment Date without the consent of the Issuer or the Noteholders provided that (a) there is no event of default under any of the Series Specific Loans, (b) any change is restricted by 'Limit on the number of Extensions' and 'Total maximum time limit of Extensions' as specified in the Final Terms and (c) any change is notified on the Platform to the Noteholders.

The Lending Company may also extend the repayment schedule of one or more Series Specific Loans by changing the Loan Interest Payment Date, the Loan Repayment Date and/or the Loan Final Repayment Date without the consent of the Issuer or the Noteholders to comply with any new law or regulation, amendment of any existing law or regulation, or any decision of any government or municipal provided that any change is notified on the Platform to the Noteholders

11.5 Loan Receivables subject to Buyback Obligation or Repurchase

Any Loan Receivable subject to the Buyback Obligation or Repurchase will be repurchased by the Lending Company at a price equal to the outstanding principal amount of the Loan Receivable together with any accrued but unpaid Interest and any Late Payment Interest up to (but excluding) the repurchase date.

11.6 Insufficient funds on the Maturity Date

If any amounts on the Notes are outstanding on the Maturity Date, the Maturity Date will be automatically postponed to the date that is the earlier of (a) the date on which all amounts due and payable under the Notes are paid and (b) the date referred to in Condition 11.7, and Interest will not accrue on the Notes (other than Pending Payments Penalty Fee, if applicable) and any Available Distribution Amount will be paid to the Noteholders on a date as reasonably determined by the Issuer in accordance with the Priority of Payments.

11.7 After the Maturity Date

If on any date following the Maturity Date:

- (a) Mintos concludes following notification in writing from the Lending Company to the Issuer and Mintos and by API that the Lending Company has determined in good faith that there is no realistic prospect of collecting any further funds in accordance with its loan management and collection policies from the Series Specific Loans which are not subject to the Buyback Obligation nor Repurchase; or
- (b) the Issuer and Mintos determines in good faith that there is no realistic prospect of collecting any further funds from the Lending Company if the Series Specific Loans are subject to the Buyback Obligation and/or Repurchase but the Issuer has not received the full amount due from the Buyback Obligation or Repurchase or, if earlier, on the 10th anniversary of the Maturity Date,

as of that date (i) all the Notes outstanding will be cancelled in full, (ii) the Issuer will be deemed to have fulfilled all its payment and other obligations to each of the Noteholders and (iii) no Noteholder will have any right in respect of any of the Notes.

11.8 *Payments to the Noteholders*

Any payments of Interest and redemption amounts in respect of the Notes will be made to the relevant Investment Account.

11.9 *Taxes*

All payments and/or deliveries in respect of the Notes made by or on behalf of the Issuer will be made subject to any withholding or deduction for any taxes, duties, assessments or governmental charges of whatever nature which may be required to be withheld or deducted.

The Issuer or Mintos will:

- (a) not be liable as a result for, or otherwise obliged to pay, any additional amount to any of the Noteholders in respect of, or compensation for, any such withholding or deduction or any other amounts withheld or deducted;
- (b) not be liable for or otherwise obliged to pay, and the relevant Noteholder will be liable for and/or pay, any tax, duty, charge, withholding or other payment whatsoever which may arise as a result of, or in connection with, the ownership, any transfer (or agreement to transfer), any payment and/or any delivery (or any agreement for delivery) in respect of the Notes held by such Noteholder; and
- (c) have the right but will not be obliged (unless required by law), to withhold or deduct from any amount payable or, as the case may be, any delivery due to the relevant Noteholder, such amount or portion as will be necessary to account for or to pay any such tax, duty, charge, withholding or other payment.

The Noteholders will agree to provide the Issuer and/or Mintos with all information and documentation required by the Issuer and/or Mintos, as the case may be, to satisfy any Latvian or other country tax or regulatory obligations at any time.

11.10 *Payments on Business Days*

If the due date for payment of any amount in respect of any Notes is not a Business Day, the Noteholder will not be entitled to payment of the amount due until the next succeeding Business Day in such place and will not be entitled to any further interest or other payment in respect of any such delay.

12. LIMITED RECOURSE AND NON-PETITION

- 12.1 Notwithstanding anything in the Base Prospectus, the obligations of the Issuer in respect of the Notes are limited recourse obligations which are payable solely from the sums of principal, Interest, other return and additional amounts (if any) actually received (and identified as such) in relation to the Series Specific Loans.
- 12.2 All payments to be made by the Issuer in respect of the Notes will be made only from and to the extent of the sums received or recovered from time to time by or on behalf of the Issuer under the Series Specific Loans, subject always to the Priority of Payments.
- 12.3 In relation to any sums received or recovered, the Issuer (or Mintos on its behalf) will follow these Terms and Conditions in determining to which Series of Notes such sums relate and such

determination will be binding on Noteholders of all Series in the absence of manifest error.

- 12.4 To the extent that the sums referred to in Condition 12.1 are less than the amount which the Noteholders may have expected and been entitled to receive (such difference being referred to as the **shortfall**), the shortfall will be borne by the Noteholders.
- 12.5 Each Noteholder, on subscribing or buying any Note directly, through a portfolio management service of the Platform or any other way, irrevocably accept and acknowledge that it is fully aware that:
- (a) only the sums referred to in this Condition 12, and Conditions 7 and 11 will be available for any payments to be made by the Issuer in respect of the Notes;
 - (b) the sums which are attributable to another Series of Notes are only available in satisfaction of the obligations of the Issuer to such Noteholders;
 - (c) the obligations of the Issuer to make payments in respect of the Notes will be limited to the sums and the Noteholders will have no recourse to the Issuer, Mintos or their respective shareholders, directors, officers, employees, affiliates, successors or assigns in respect of the Notes for the shortfall;
 - (d) no Noteholder is entitled to proceed against the Issuer or Mintos for the shortfall;
 - (e) following the realisation and distribution of the net proceeds from the Loan Receivable corresponding to the Series Specific Loan in accordance with the Priority of Payments, the Noteholders or anyone acting on behalf of any of them will not be entitled to take any further steps against the Issuer or Mintos to recover any further sum and the right to receive any such further sum will be deemed as fulfilled; and
 - (f) no Noteholder will be entitled to petition or take any other step or join with any other person in bringing, instituting or joining, insolvency, winding-up, liquidation or bankruptcy proceedings (whether court-based or otherwise), or for the appointment of an examiner, liquidator or analogous person in relation to the Issuer, nor will it have any claim to, or in respect of any sum arising in respect of any assets of the Issuer.
- 12.6 Non-payment of the shortfall referred to in this Condition 12 will not constitute an Event of Default.
- 12.7 None of the shareholders of the Issuer, Mintos, the Lending Company, or the Backup Servicer (if any) has any obligation to any Noteholder for payment of any amount by the Issuer in respect of the Notes.
- 12.8 The provisions of this Condition 12 will survive redemption of the Notes.

13. PURCHASE

- 13.1 The Issuer may at any time purchase Notes at any price in the open market or otherwise.
- 13.2 Any Note purchased by the Issuer on the sole discretion of the Issuer may be either cancelled or sold to any investor on behalf of the Issuer by Mintos.

14. CANCELLATION

All Notes which are redeemed or cancelled may not be re-issued or resold.

15. PRESCRIPTION

Any and all claims against the Issuer for payment in respect of the Notes will be prescribed and become void unless made within 10 years from the date on which payment in respect of the Notes first becomes due.

16. FURTHER ISSUES

The Issuer may from time to time without the consent of the Noteholders create and issue further Series and further tranches of existing Series of Notes. A further tranche of an existing Series will:

- (a) be fungible with the Notes of that existing Series;
- (b) have the same terms and conditions as the Notes of that Series except for the Aggregate Nominal Amount, the Issue Date, the Issue Price, the Interest Accrual Periods, the first Interest Payment Date and the first Redemption Date; and
- (c) be consolidated and form a single Series with that existing Series of Notes, and references in these Terms and Conditions to Notes will be construed accordingly.

17. EVENTS OF DEFAULT

17.1 Any of the following events will constitute an event of default under the Notes (each, an **Event of Default**):

- (a) if any order is made by any competent court or any resolution passed for the winding-up or dissolution (including any bankruptcy, insolvency, voluntary, forced or judicial liquidation, composition with creditors, a reprieve from payment, controlled management, fraudulent conveyance, general settlement with creditors or reorganisation proceedings or similar proceedings affecting the rights of creditors generally) of the Issuer (save for the purposes of amalgamation, merger, consolidation, reorganisation or other similar arrangements); or
- (b) formal notice is given of an appointment an administrator (including any receiver, liquidator, auditor, verifier), provisional administrator; or
- (c) any application is made, or petition is lodged, or documents are filed with the court or administrator in relation to the Issuer for the actions, proceeding or procedures specified in paragraphs (a) or (b) above, unless such proceedings or petitions are disputed in good faith and are discharged, stayed or dismissed within 90 calendar days of commencement.

17.2 The Issuer is obliged to inform Mintos immediately if any Event of Default should occur. Should Mintos not receive such information, Mintos is entitled to assume that no Event of Default exists or can be expected to occur, provided that Mintos does not have knowledge of any Event of Default. Mintos is under no obligation to make any investigations relating to any Event of Default. The Issuer will, at the request of Mintos, provide Mintos with details of any Event of

Default and provide Mintos with all documents that may be of significance for the application of this Condition 17.

- 17.3 If Mintos has been notified by the Issuer or has otherwise determined that there is an Event of Default, Mintos will, within 20 Business Days of the day of notification or determination, notify the Noteholders according to Condition 20.
- 17.4 Upon the occurrence of an Event of Default, Notes are repaid according to the terms and conditions stipulated by this Base Prospectus and relevant Series Final Terms, unless otherwise required by a rule of the law.
- 17.5 Mintos, subject to the Noteholders indemnifying and holding Mintos harmless from any reasonable expenses, loss or liability, will take every reasonable measure necessary to recover the amounts outstanding under the Notes according to their terms and conditions and Transaction Documents. Mintos will in each case inform the Noteholders about the costs which should be compensated prior to requesting any indemnification. In any case Mintos will charge this compensation of costs only up to the recovered amount. Mintos will not ask for compensation of costs for its in-house staff and resources.
- 17.6 For the avoidance of doubt, if any payment is not made by the Issuer because the Issuer has not received the relevant amounts under the Series Specific Loans so that the Available Distribution Amount after application of the Priority of Payments is not enough to make payments due under the Notes in full, the occurrence of such event will, as such, not constitute an Event of Default.

18. MEETING OF NOTEHOLDERS

18.1 *General provisions*

The Issuer from time to time may convene a meeting of the Noteholders (the **Noteholders Meeting**) to adopt resolutions on certain matters. The Issuer at its own discretion decides which matters will be reserved for passing at the Noteholders Meeting.

These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the Noteholders Meeting or in respect of the relevant resolution and Noteholders who voted in a manner contrary to the majority. As a result, Noteholders may be bound by a change to these Terms and Conditions or by some other decision that affects Noteholders' investment in the Notes even though they have not agreed to such change.

The Noteholders Meeting may adopt its resolutions in one of the two forms as chosen by the Issuer:

- (a) at a meeting held by attendance of the Noteholders to discuss the items on the agenda and pass resolutions on the matters put to the vote using ballots provided; or
- (b) by absentee voting (without attendance of the Noteholders to discuss the items on the agenda and pass resolutions on the matters put to the vote).

The Noteholders Meeting will be chaired, and minutes taken by a representative of Mintos.

18.2 *Resolutions of the Noteholders Meeting*

Matters put to the vote at a Noteholders Meeting and its agenda will be decided by the Issuer.

The Noteholders may neither pass resolutions on the matters not included in its agenda nor amend the agenda.

Resolutions passed by the Noteholders Meeting and voting results will be provided to the persons eligible to participate in the Noteholders Meeting in a report, which will be disclosed to the Noteholders as per the procedure prescribed with regard to sending notices of the Noteholders Meeting, within 5 Business Days after the closing date of the meeting or the final date for submitting the voting ballots in case of absentee voting. However, the failure to do so will not invalidate the resolution.

The resolution will be binding on all the Noteholders, whether or not present at the Noteholders Meeting and each of them will be bound to give effect to it accordingly.

18.3 *Information on holding a Noteholders Meeting*

The Issuer will notify the Noteholders about the Noteholders Meeting in accordance with the procedure below.

A notice of the Noteholders Meeting (the **Notice**) will be given according to Condition 20 no later than 10 days in advance.

The Notice will be given to the Noteholders registered on the date of the Notice in the electronic register of Noteholders maintained by Mintos.

The Issuer may decide not to publish the Notice on the Platform. In such a case within the time specified in this Condition 18.3 the Issuer will send the Notice to the Noteholders by email.

The Issuer may at its own discretion make available information to the Noteholders entitled to participate in the Noteholders Meeting as part of preparations for the Noteholders Meeting.

18.4 *Quorum at a Noteholders Meeting*

A Noteholders Meeting will be deemed quorate if attended by Noteholders aggregately holding more than 50% of:

- (a) the aggregate Principal Amount Outstanding of all Series of Notes towards the Lending Company on the date of the Notice if the decision is related towards all Series of Notes outstanding; or
- (b) the aggregate Principal Amount Outstanding of the relevant Series of Notes on the date of the Notice if the decision is related towards the relevant Series of Notes outstanding.

The number of votes for each Noteholder equals the Principal Amount Outstanding in the respective Series on the date of the Notice.

When a Noteholders Meeting is held by attendance of the Noteholders to discuss the items on the agenda and pass resolutions on the matters put to the vote, the Noteholders registered to participate in the Noteholders Meeting and the Noteholders whose ballots have been received

no later than 2 days before the meeting will be deemed to have participated in the meeting.

When a Noteholders Meeting is held in the form of absentee voting, the Noteholders whose ballots have been received before the final date for submitting the ballots will be deemed to have participated in the meeting.

Where there is no quorum for a Noteholders Meeting, a second Noteholders Meeting will be held with the same agenda. Such second Noteholders Meeting will be deemed quorate if attended by Noteholders aggregately holding more than 30% of:

- (a) the aggregate Principal Amount Outstanding of all Series of Notes towards the Lending Company on the date of the Notice if the decision is related towards all Series of Notes outstanding; or
- (b) the aggregate Principal Amount Outstanding of the relevant Series of Notes on the date of the Notice if the decision is related towards the relevant Series of Notes outstanding.

Subject to the quorum being present, the decisions on the Noteholders Meeting agenda will be adopted per each item of the agenda by the majority from the total amount of votes provided.

18.5 Voting ballots

Ballots for voting at a Noteholders Meeting will be sent together with the Notice according to Condition 18.3.

Ballots for voting will be in the English language.

Voting could be convened as an e-voting through filling-out an electronic voting ballot through the interface of the Platform.

Noteholders included in the list of those entitled to participate in the Noteholders Meeting other than the Noteholders Meeting held in the form of absentee voting, or their representatives, may register to participate or forward their completed ballots to the Issuer. Voting ballots will be counted towards the calculation of the quorum and voting results if received by the company no later than 2 days before the Noteholders Meeting.

The voting ballot will contain the information about the Noteholders Meeting including but not limited to:

- information about the Issuer, including address and contact person;
- details identifying the Series of Notes;
- form of the Noteholders Meeting (attendance or by absentee voting);
- date, place and time of the Noteholders Meeting if it is held in the form of attendance of the Noteholders;
- Principal Amount Outstanding; and
- voting options for each item on the agenda, expressed as “for”, “against”, or “abstained”, and the indication that the voting ballot must be signed by a person entitled

to participate in the Noteholders Meeting or its representative unless convened by e-voting.

When voting by ballots, only those voting ballots are counted where for each item only one voting option is selected. The voting ballots completed in breach of the aforementioned requirement will be deemed invalid. However, if there are several items put to the vote on the voting ballot, breach of the aforementioned requirement with respect to one or several items will not affect the validity of the remaining ballot. If a voting ballot is rendered invalid with respect to voting on one, several or all items included in such ballot, the votes so cast in such ballot will not be excluded from the calculation of the quorum. If a voting ballot is rendered invalid, the votes on the items contained in the voting ballot will not be counted.

18.6 *Counting*

The counting functions will be performed by Mintos, which will check the powers of, and register the participants in a Noteholders Meeting, determine the quorum at a Noteholders Meeting, count the votes and determine the voting results, draw up the voting minutes and hand over the voting ballots to the archive.

19. SUBSTITUTION

- 19.1 The Issuer or any previous substitute company may be substituted by any other company as principal obligor under all of the Notes then outstanding provided that such substitution would not be materially prejudicial to the interests of the Noteholders and subject to the other Terms and Conditions being complied with, including with provisions of the Transaction Documents, and further provided that Latvijas Banka has given its prior consent to such substitution if any needed according to the applicable law.
- 19.2 By subscribing to, or otherwise acquiring, the Notes, the Noteholders expressly consent to the substitution of the Issuer and to the release of the Issuer from any and all obligations in respect of the Notes and any relevant agreements and are expressly deemed to have accepted such substitution and the consequences of such substitution.
- 19.3 Any such substitution will be notified to Noteholders in accordance with Condition 20.

20. NOTICES AND PROVISION OF INFORMATION

- 20.1 Notices to the Noteholders will be given upon sole discretion of the Issuer in the English language and/or any other language the Issuer deems fit for such purposes and will be given by using one or several communication channels:
- (a) emailed to respective email addresses in the register of Noteholders and deemed to have been given within 24 hours after the dispatch; and
 - (b) delivered to Mintos for further communication to the Noteholder according to the services provision agreement between Mintos and the Noteholder (including times when deemed to have been duly given).
- 20.2 Any notices, demands, claims or other communication to the Issuer by any Noteholder will be in the English language and will be given by using one of the following communication channels:
- (a) delivered by hand or courier and deemed to have been given on the same day of

delivery; and

- (b) delivered by registered mail and deemed to have been given on the 10th calendar day following the date indicated on the stamp by the postal service provider on the acceptance of a registered letter.

20.3. For the purposes of Condition 20.2 notices or other communications addressed to the Issuer will be given to Mintos, serving as an agent for this purpose:

AS Mintos Marketplace
50 Skanstes Street, Riga, LV-1013, Latvia
For the attention of SIA Mintos Finance No.44

21. AGENTS

- 21.1 Mintos acts solely as an agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, any Noteholder.
- 21.2 The Issuer subject to the provisions of the Transaction Documents reserves the right at any time to vary or terminate the appointment of Mintos, the Lending Company and any other party to any of the Transaction Documents.

22. FORCE MAJEURE

Neither the Issuer nor Mintos will be responsible for any failure to perform any of its respective obligations under these Terms and Conditions which is due to any reason that is independent of that person's will and has resulted from a *force majeure* event. A *force majeure* event will apply only and solely if that person has taken all steps that depend on it in order to perform the obligation. Once the *force majeure* event has finished, that person must immediately resume the performance of the obligation. The following circumstances will be considered as *force majeure* events:

- (a) extraordinary and unavoidable circumstances including natural disasters, fire, flood, earthquake, warfare, terror acts, riots and strikes;
- (b) technical failures, delays or malfunctions; failure of computers, communications systems, hardware and/or software; power supply malfunctions; or other critical infrastructure malfunctions, which neither the Issuer nor Mintos could have prevented or predicted;
- (c) decisions and/or activities of local and/or foreign public authorities, and/or international organisations;
- (d) entry into force, amendments and/or suspension of a statutory act binding on either the issuer or Mintos affecting the performance of obligations under these Terms and Conditions; and
- (e) any circumstance defined as a *force majeure* circumstance in any of the Transaction Documents.

23. GOVERNING LAW AND JURISDICTION

- 23.1 The Notes (and any non-contractual obligations arising out of or in connection with the Notes) are governed by, and will be construed in accordance with the law of the Republic of Latvia.
- 23.2 The courts of the Republic of Latvia are to have jurisdiction to settle any disputes which may arise out of or in connection with the Notes (including any disputes relating to any non-contractual obligations arising out of or in connection with the Notes) and accordingly any legal action or proceedings arising out of or in conjunction with the Notes may be brought in such courts. The Issuer and each of the Noteholders irrevocably submits to the jurisdiction of such courts.

24. AMENDMENTS AND MODIFICATIONS

To comply with any applicable law, the Issuer may validly amend or supplement these Terms and Conditions by publishing the changed Terms and Conditions on the Platform without the consent of the Noteholders.

25. LIMITATION OF LIABILITY, AND REPRESENTATION AND WARRANTIES OF THE NOTEHOLDER

- 25.1 Notwithstanding anything in the Base Prospectus, other than with respect to gross negligence or wilful misconduct by the Issuer and/or Mintos, neither the Issuer nor Mintos will be held liable by any Noteholder for:
- (a) any material error, misrepresentation, omission or fraud by the Lending Company;
 - (b) failure of the Lending Company for whatever reason to inform the Issuer and/or Mintos of the Payment Event having occurred or for the information being inaccurate or wrong;
 - (c) the Loan Receivables; or
 - (d) determinations and decisions when distributing amounts under the Notes, including, when applying the Priority of Payments, deciding whether to defer payment or make a partial payment, relying upon or deciding if and when there is no realistic prospect of collecting further funds under a Series Specific Loan, including in the event of default of the Lending Company.
- 25.2 In any and all cases liability of the Issuer and/or Mintos to any Noteholder under these Terms and Conditions will be limited to the amount invested in the impacted Notes by the Noteholder.
- 25.3 Each Noteholder, on subscribing or buying any Note directly, through a portfolio management service of the Platform or any other way, irrevocably accept and acknowledge that it is fully aware that:
- (a) the Issuer and Mintos do not make any representation or warranty in respect of, or will not at any time have any responsibility for, or, save as otherwise expressly provided in these Terms and Conditions, liability or obligation in respect of the performance and observance by any Borrower of its obligations under the relevant Series Specific Loan, the Lending Company of its obligations under the Cooperation Agreement, and/or by the pledgor of its obligations under the pledge agreement, or the recoverability of any sum of the principal, Interest, other return or any additional amounts (if any) due or to

become due from any Borrower, the Lending Company, and/or the pledgor;

- (b) the Issuer and Mintos will not at any time have any responsibility for, or obligation or liability in respect of, the condition, financial or otherwise, covenant, creditworthiness, affairs, status or nature of any Borrower, the Lending Company,, the pledgor or any other person;
- (c) the Issuer and Mintos will not at any time be liable for any representation or warranty, or any act, default or omission of any Borrower, the Lending Company,, the pledgor or other person;
- (d) the Issuer will not at any time have any responsibility for, or liability or obligation in respect of, the performance and observance by Mintos of its obligations under the Transaction Documents or any other agreement entered or to be entered into by and between the Noteholders and Mintos;
- (e) financial servicing and performance of the terms of the Notes depend upon both the performance by each Borrower of its obligations under the Series Specific Loan, its duties to make payments under the Series Specific Loan and its credit and financial standing, and the performance by the Lending Company, and/or the pledgor of their respective contractual obligations towards the Issuer and Mintos as well as their respective credit and financial standing;
- (f) the Notes, which the Noteholder has or will acquire, reflect the performance of the relevant Series Specific Loans. The Noteholder has no direct recourse to any of the Series Specific Loans or the corresponding Loan Receivables. Once the Loan Receivables have been realised according to these Terms and Conditions, the Noteholder is not entitled to take any further steps against the Issuer or Mintos to recover any further sums due and the right to receive any such sum will be extinguished. The Noteholder accepts not to attach or otherwise seize any of the assets of the Issuer. In particular, the Noteholder will not be entitled to petition or take any step for the winding-up, the liquidation or the bankruptcy of the Issuer or any similar insolvency-related proceedings and such petition or action will be treated as null and void as from its initiation time; and
- (g) the Investment Accounts will be opened and be held by the Noteholder fully operational with Mintos while the Noteholder holds any Notes.

10. TAXATION

The information provided in this section will not be treated as legal or tax advice; and prospective investors are advised to consult their own tax advisors as to the tax consequences of the subscription, ownership and disposal of the Notes applicable to their particular circumstances. The following is a general summary of certain tax considerations in the Republic of Latvia in relation to the Notes. It is not exhaustive and does not purport to be a complete analysis of all tax consequences relating to the Notes, as well as does not take into account or discuss the tax implications of any country other than the Republic of Latvia.

Tax laws of the Noteholder's country of residence for taxation purposes and of the Issuer's country of residence may have an impact on the income received from the Notes.

This summary is based on the laws of Latvia as in force on the date of this Base Prospectus and is subject to any change in the law that may take effect after such date, provided that such changes could apply also retroactively.

Latvia has entered into a number of tax conventions on elimination of the double taxation (hereinafter - DTT), which may provide a more favorable taxation regime. Therefore, if there is a valid DTT between Latvia and the country of tax residence of a prospective Noteholder, it should be also examined. The procedures for application of tax conventions are provided in the Republic of Latvia Cabinet of Ministers' Regulations No. 178 "Procedures for Application of Tax Relief Determined in International Agreements for Prevention of Double Taxation and Tax Evasion", adopted on 30 April 2001.

Taxation of the Issuer

The Issuer is a corporate income tax payer in Latvia. According to the Latvian tax law, the annual profit earned by entities in Latvia is not taxed. Instead, corporate income tax is paid on dividends, fringe benefits, gifts, donations, representation costs, non-business related disbursements and transfer pricing adjustments. The tax rate applicable is 20%, however, the taxable base is divided by the coefficient 0.8, thus the effective Corporate income tax rate is 25%.

Taxation of individual Noteholders

Resident individuals

An individual will be considered a resident of Latvia for taxation purposes if at least one of the following requirements is met:

- the declared place of residence of this person is in Latvia;
- the person stays in Latvia for at least 183 days for a period of 12 consecutive calendar months;
- the person is a Latvian citizen who is employed by the government of Latvia in a foreign country.

Following the Latvian tax laws the interest income received by the individual tax resident in Latvia is subject to tax at the rate of 20%. The interest income from the Notes for resident individuals will be subject to 20 % personal income tax that will be withheld by the Issuer before the Interest payment is made by the Issuer to the Noteholder. The tax withheld by the Issuer is a final tax liability on the interest income received.

Under the regular course of business, each time the Borrower makes repayments to the Lending Company, the funds are firstly accumulated in the Trust account before being released to the Lending Company. Then, the Lending Company transfers the funds to the Issuer, which in turn makes repayments under the relevant Series of Notes to the relevant Investor via Mintos. The repayments are received into the relevant Investment Account.

The income from the sale of the Notes is treated as an income similar to the interest income for Latvian personal income tax purposes and will be subject to 20% personal income tax and the tax is payable by the individual him/herself.

Non-resident individuals

An individual would be considered a non-resident of Latvia for taxation purposes in all cases unless he/she is a tax resident of Latvia. Interest income from the Notes received by the non-resident individual is subject to a 5% withholding tax rate for investors who invest as private persons and are tax residents of the EU/EEA. For other individual investors and those who have not confirmed tax residence and not investing as a private person 20% withholding tax rate is applied. According to the general practice the tax withheld in Latvia might be deducted from the tax payable by the investor in his/her residence country (as tax paid abroad). However, we recommend consulting with the respective country's tax administration or tax adviser to clarify the procedure and documents required to perform such a deduction (if any).

The tax rate might be reduced based on the Double Tax Treaty between Latvia and the respective country. The list of the Double Tax Treaties concluded by Latvia is available [here](#).

The income from the sale of the Notes will be subject to 20% tax and the tax would be payable by the individual him/herself, if the buyer of the Notes is an individual or legal entity non-resident of Latvia.

Taxation of legal entity Noteholders

Resident legal entities

A legal entity would be considered a resident of Latvia for tax purposes, if established pursuant to Latvian law. Interest payments on the Notes and proceeds from the disposal of the Notes received by Latvian resident legal entities will not be subject to withholding tax in Latvia. Under the Latvian tax law retained earnings are exempt from corporate income tax and only profit distributions are taxed. Distributed gross profits are subject to the 20% profit tax. Corporate income tax on the net amount of profit distribution is determined by dividing the net amount with a coefficient of 0.8 (i.e., the effective tax rate on net distributed profit is 25%).

Non-resident legal entities

A legal entity would be considered a non-resident of Latvia for taxation purposes in all cases unless it is a tax resident of Latvia. The interest income and capital gains from the sale of the Notes for non-resident legal entities will not be taxable in Latvia (i.e. gross income will be paid), except if the income recipient is located, registered, or incorporated in a no-tax or low-tax country (so-called "tax havens"; if this is the case - 20% tax will be withheld by the Issuer in Latvia). The list of "tax havens" according to the Latvian law includes UK Anguilla, Antigua and Barbuda, US Guam, US Samoa, US Virgin Islands, Belize, Russian Federation, Commonwealth of the Bahamas, Republic of Fiji, Republic of Palau, Republic of Panama, Independent State of Samoa, Republic of Seychelles, UK Turks and Caicos Islands, Republic of Trinidad and Tobago, Republic of Vanuatu. The list of mentioned countries and territories may be amended from time to time.

11. APPLICABLE FINAL TERMS
